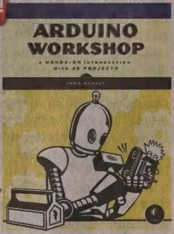
28-17917	Receiver only	13.50

Books

NEW!

Arduino Workshop

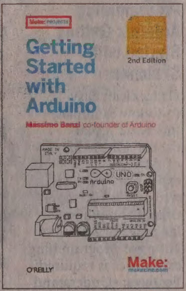


•Learn how to use Arduino shields and integrate them into your projects. Starts off with an overview of the Arduino system and quickly moves into coverage of various electronics components and concepts •Hands on projects reinforce what you've learned and how to apply that knowledge •65 different projects to create •Learn how to build Arduino toys and games •Master the power of Arduino for your own DIY projects

MCM Part #	(1-9)	(10-up)
81-3425	$29.95	$26.55

ARDUINO

Getting Started With Arduino, 2nd Edition



Make: PROJECTS
Getting Started with Arduino
2nd Edition
Massimo Banzi co-founder of Arduino
O'REILLY
Make:

This edition's thorough introduction, updated for Arduino 1.0, gives you a lot of ideas for projects and helps you work with them right away. From getting organized to putting the final touches on your prototype, all the information you need is here. **Features:** •Learn about the Arduino hardware and software development, basics of electricity and electronics, prototyping on a solderless breadboard, drawing a schematic diagram, and more •To use the introductory examples in this guide, all you need an Arduino Uno or earlier model, along with USB A-B cable and an LED •Easy-to-use Arduino development environment is free to download

MCM Part #	(1-9)	(10-up)
83-14714	$21.49	$20.85

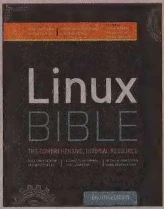
ARDUINO

Open Softwear, 2nd Edition

Open Softwear is a book about fashionable prototyping and wearable computing using the Arduino. **Features:** •Design circuits featuring conductive fabric, resistive thread, soft buttons, LEDs, and more •Uses Arduino for ease of development and programming

MCM Part #	(1-9)	(10-up)
83-14715	$15.49	$15.03

Linux Bible Reference Book



Linux continues to be an excellent, low-cost alternative to expensive operating systems. Whether you're new to Linux or need a reliable update and reference, this is an excellent resource. Veteran bestselling author Christopher Negus provides a complete tutorial packed with major updates, revisions, and hands-on exercises so that you can confidently start using Linux today. **Features:** •Offers a complete restructure, complete with exercises, to make the book a better learning tool •Places a strong focus on the Linux command line tools and can be used with all distributions and versions of Linux •Features in-depth coverage of the tools that a power user and a Linux administrator need to get started

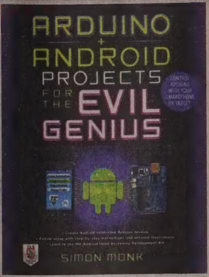
MCM Part #	(1-9)	(10-up)
81-3330	$44.99	$42.45

McGraw-Hill Programming Arduino: Getting Started with Sketches

Using clear, easy-to-follow examples, this book reveals the software side of Arduino and explains how to write well-crafted sketches using the modified C language of Arduino. No prior programming experience is required! **Features:** •Understand Arduino hardware fundamentals •Install the software, power it up, and upload your first sketch •Learn C language basics •Write functions in Arduino sketches •Structure data using arrays and strings •Use Arduino's digital and analog inputs and outputs in your programs •Work with the Standard Arduino Library •Write sketches that can store data •Program LCD displays •Use an ethernet shield to enable Arduino to function as a web server •Write your own Arduino libraries

MCM Part #	(1-9)	(10-up)
81-3340	$13.99	$13.25

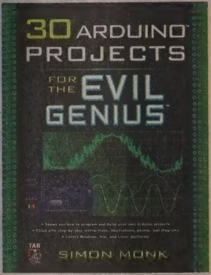
McGraw-Hill Arduino + Android Projects for the Evil Genius



Learn how to create Arduino devices and control them with Android smartphones and tablets. Easy-to-find equipment and components are used for all the projects in the book. **Features:** •Contains step-by-step instructions and helpful illustrations •Provides tips for customizing the projects •Covers the underlying principles behind the projects •Removes the frustration factor--all required parts are listed •Provides all source code on the book's website •Build a Bluetooth robot, Android-controlled light show, TV remote, and more

MCM Part #	(1-9)	(10-up)
81-3345	$22.99	$22.25

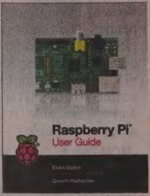
McGraw-Hill 30 Arduino Projects for the Evil Genius



This wickedly inventive guide shows you how to program and build a variety of projects with the Arduino microcontroller development system. Covering Windows, Mac, and Linux platforms, 30 Arduino Projects for the Evil Genius gets you up to speed with the simplified C programming you need to know, no prior programming experience necessary. **Features:** •Step-by-step instructions and helpful illustrations •Provides full schematic and construction details for every project •Covers the scientific principles behind the projects •Removes the frustration factor, all required parts are listed along with sources •Build a Morse code translator, high-powered strobe light, USB temperature logger, and more

MCM Part #	(1-9)	(10-up)
81-3350	$22.99	$22.25

Raspberry Pi User Manual



Make the most out of the world's first truly compact computer. It's the size of a credit card, it can be charged like a smartphone, it runs on open-source Linux, and it holds the promise of bringing programming and playing to millions at low cost. And now you can learn how to use this amazing computer from its co-creator, Eben Upton. **Features:** •Gets you up and running on Raspberry Pi, a high-tech computer the size of a credit card •Helps educators teach students how to program •Covers connecting Raspberry Pi to other hardware, such as monitors and keyboards, how to install software, and how to configure Raspberry Pi •Shows you how to set up Raspberry Pi as a simple productivity computer, write basic programs in Python, connect to servos and sensors, and drive a robot or multimedia center

MCM Part #	ONLY
81-3325	$16.73

15 Dangerously Mad Projects for the Evil Genius

This wickedly inventive guide explains how to design and build 15 fiendishly fun electronics projects. Filled with photos and illustrations, 15 Dangerously Mad Projects for the Evil Genius includes step-by-step directions, as well as a construction primer for those who are new to electronics projects.
Features: •Step-by-step instructions and helpful
illustrations •Covers essential safety measures •R
the scientific principles behind the projects •Rem
the frustration factor--all required parts are liste
with sources •Build a Coil gun, Trebuchet, Ping
ball minigun, and many more devious devices

MCM Part #
81-3360

Programming the Raspberry Pi: Getting Started with Python

Create innovative programs and fun games on your tiny yet powerful Raspberry Pi. **Features:** •Explains the basics of Raspberry Pi application development, while providing hands-on examples and ready-to-use scripts •Boot up and configure your Raspberry Pi •Navigate files, folders, and menus
•Create Python programs using the IDLE edito
with strings, lists, and functions •Use and write
own libraries, modules, and classes •Add web fe
to your programs •Develop interactive games w
Pygame •Interface with devices through the GP
•Build a Raspberry Pi Robot and LED Clock •
professional-quality GUIs using Tkinter

MCM Part #	(1-9)
81-3365	$13.99

Robot Builder's Bonanza, 4th Edition

Have fun while learning how to design, construct, and use small robots! This richly illustrated guide offers everything you need to know to construct sophisticated, fully autonomous robots that can be programmed from your computer. **Features:** •Fully updated with the latest technologies and
techniques •Includes step-by-step plans that tak
you from building basic motorized platforms to
giving the machine a brain--and teaching it to w
talk, and obey commands •Packed with more th
100 affordable projects, including 10 completely
new robot designs •Projects are modular and ca
combined to create a variety of highly intelliger
and workable robots of all shapes and sizes

BEST SOFTWARE TO USE
THE FUTURE OF 3D PRINTING
O'REILLY
makezine.com

The 3D printing revolution is well upon us, with new machines appearing at an amazing rate. With the abundance of information and options out there, how are makers to choose the 3D printer that's right for them? MAKE is here to help, with Make: Ultimate Guide to 3D Printing. Make brought 16 of the top printers to their headquarters and hosted a weekend-long printer shootout staffed by the editors of MAKE and a number of luminaries in the field. They documented out-of-box experiences and subjected the printers to a number of print and torture tests. This issue presents their findings for you in a clear, concise manner.

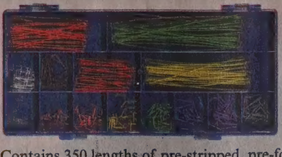
Jumper Wires

ELENCO Jumper Wire Kit

Contains 140 lengths of pre-stripped, pre-formed #22 solid wire in various colors. Contains 14 different lengths of ten pieces each. Includes a plastic case. Dimensions: 2" (H) x 6½" (W) x ½" (D).

MCM Part #	(1-4 kits)	(5 kits-up)
102-145	$7.10	$6.75



ELENCO Jumper Wire Kit

Contains 350 lengths of pre-stripped, pre-formed #22 solid wire in various colors. 14 different lengths of 25 pieces each. Contained in a large 14 compartment plastic case. Dimensions: 5" (H) x 10½" (W) x 1¼" (D).

MCM Part #	(1-4 kits)	(5 kits-up)
102-155	$14.99	$14.81

Basic Black on Green 5V LCD

•Available in 16 character x 2 line or 20 character x 4 line •Utilizes the extremely common HD44780 parallel interface chipset •Requires ~11 I/O pins to interface •LED backlight •Works in 4 or 8 bit mode •Compatible with Arduino LCD library

MCM Part #	Description	ONLY
83-15157	16 x 2	$7.99
83-15158	20 x 4	19.99

128x128 Color LCD Display with Serial Interface

This 128x128 mini color LCD is a perfect match for portable applications. Features: •Originally intended for replacing broken LCD screens in cell phones •Connector is very fragile, please use caution when working with this module •Inexpensive LCD comes with a white LED backlight and a relatively simple 9 pin serial interface •Frame Dimensions: 1.35"x1.58" •Active Display Dimensions: 1.2"x1.2" •LCD Logic - 3.3V @ 2-3mA •LED Backlight - 7V @ 40-50mA (very bright) •Full 4,096 Color Display •Uses the Epson S1D15G10 or Philips PCF8833 Controller

MCM Part #	(1-9)	(10-up)
83-15159	$14.99	$11.38

16 x 2 LCD with I2C Interface

•This is a basic 16 character by 2 line display with IIC/I2C interface •Black text on Green background •Utilizes the extremely common HD44780 parallel interface chipset •This LCD is controlled by I2C, and only requires two IOs •Background light can be controlled by the jumper or firmware •Adjustable contrast •Device address is 0x27

MCM Part #	(1-9)	(10-up)
83-15160	$19.99	$17.32

Basic 16x2 LCD with Serial Interface

The serial UART 16x2 LCD allows you to control a parallel based LCD over a single-wire serial interface. Features: •Serial interface takes care of all the HD44780 commands allowing seamless integration with any microcontroller •Requires 5V TTL serial at a default baud rate of 9600bps (8-N-1), adjustable from 2400~38400bps •Power, ground, and RX pins are all broken out to a 4-pin 2.54mm pitch header •Potentiometer for contrast adjustment •Embedded PIC 16F88 utilizes onboard UART for greater communication accuracy •Incoming buffer stores up to 80 characters •Backlight transistor can handle up to 1A •Pulse width modulation of backlight allows direct control of backlight brightness and current consumption •All surface mount design allows a backpack that is half the size of the original •Faster boot-up time •Boot-up display can be turned on/off via firmware

MCM Part #	(1-9)	(10-up)
83-15162	$15.99	$13.36

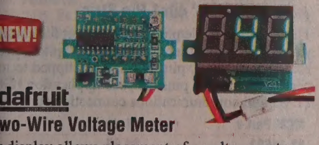
Panel Meters

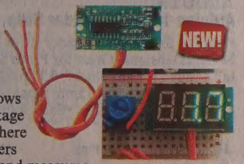


dafruit Two-Wire Voltage Meter

display allows placement of a voltage meter anywhere •Simple 2-wire design powers meter asures at the same time •0.1V accuracy on t, 7-segment display •Measurement range: 0V •3~4mA draw •Easy to read green LCD •PCB dimensions: 30mm x 20mm •Display ions: 23mm x 14mm

art #	ONLY
05	$7.99

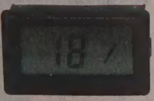
dafruit hree-Wire eter



display allows ent of a voltage lmost anywhere design powers ith 2 wires and measures third •0.1V accuracy on a 3 digit, 7-segment •Measurement range: 0V~99.9V •3~4mA draw read green LCD display •PCB dimensions: 20mm •Display dimensions: 23mm x 14mm

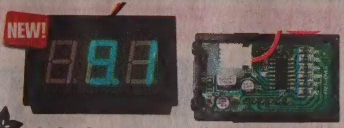
art #	ONLY
00	$7.99

Hygrometer (ESD)



iature hygrometer for easy display in a lab e mounted in a panel, box, instrument, or computer case •Perfect for ng high risk conditions for ESD •Measurement 0%~99% RH •Resolution: 1% RH •Accuracy: H (30%~80%), ±5% RH (remainder of range) ze: 1.9" x 1.125" x .55"

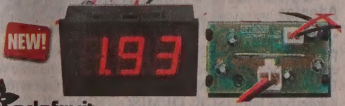
art #	ONLY
0	$12.99



adafruit Panel Voltage Meter

•Small panel meter allows placement of a voltage meter almost anywhere •Easily connects to whatever DC supply you are trying to track •0.1V accuracy on a 3 digit, 7-segment display •Measurement range: 4.5V~30V •3~4mA draw •Easy to read green LCD display •Dimensions: 48mm x 29mm x 21mm •Panel cutout: 45.5mm x 26.5mm

MCM Part #	ONLY
21-12405	$7.99



adafruit Panel Current Meter

•Small panel meter allows placement of a current meter almost anywhere •On board shunt allows for very easy hook up •Requires DC voltage to run, has two thick wires to measure current draw •3 digit, 7-segment display •Measurement range: 0.01~9.99A •Accuracy: 4% •15~25mA draw •Red LCD display •Dimensions: 48mm x 29mm x 21mm

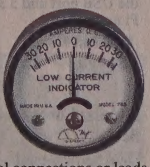
MCM Part #	ONLY
21-12410	$9.99

adafruit Panel Temperature Meter

•Small panel meter allows placement of a temperature meter almost anywhere •Displays the temperature of an attached 1% waterproof thermistor in °C •Accuracy to 1° on a 3 digit, 7-segment display •Measurement range: -30°C~70°C •3~4mA draw •Blue LCD display •Dimensions: 48mm x 29mm x 21mm •Thermistor lead length: 12cm

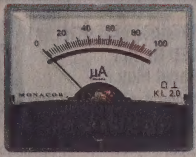
MCM Part #	ONLY
21-12415	$9.99

HOYT Low Current Indicator



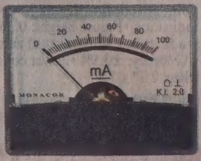
Ideal for checking low current applications such as, accessories to electrical system or low voltage leaks. **Features:** •Induction type requires that the cable be placed in slot frame on the rear of meter case, no electrical connections or leads to hook up •Range: 30~0~30ADC •1 year warranty •Mfr. #763

MCM Part #	ONLY
72-7043	$49.99

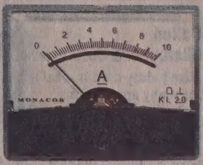


#PM11119

Compact Panel Mount Ammeters



#PM11199



#PM11278

DC moving coil ammeters provide accurate measurement of amperage in microamp, milliamp and amp scales. Mirrored scale provides accurate readings at any angle. Front panel dimensions 2¾" (H) x 1⅞" (W). Requires 1½" diameter cutout. Includes all mounting hardware. Required mounting depth, 1", overall depth 1½".

MCM Part #	Measurement Range	(1–3)	(4–up)
PM11272	50µA	$17.19	$16.29

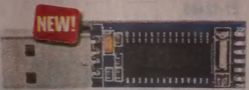
USB Programming Tools

USB to I2C Programming Adapter

•Allows programming of I2C devices over a USB bus connection •Full speed USB interface, compatible with USB 2.0 •I2C Host/Master only •I2C interface with SCL and SDA signal lines •SCL clock supports four different transmission speeds: 20KHz, 100KHz, 400KHz, and 750KHz

MCM Part #	(1-9)	(10-up)
83-15164	$23.99	$23.75

USB to SPI Programming Adapter



•Allows programming of SPI devices over a USB bus connection •Full speed USB interface, compatible with USB 2.0 •SPI Host/Master only •SPI interface with 4 interface lines (SCK, DI/MISO, DO/MOSI, Chip selected pin: CS) •SPI data rate: 68Kbps

MCM Part #	(1-9)	(10-up)
83-15165	$28.99	$28.70

SC16IS750 I2C/SPI-to UART IC Breakout Board

•Breakout board for SC16IS750 IC •Used to convert I2C or SPI signals to single-channel, high-performance UART

MCM Part #	(1-9)	(10-up)
83-15173	$14.49	$14.35

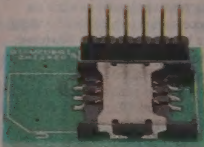
adafruit

USB to TTL Serial Cable

•Connect to Raspberry Pi serial console port for debugging •Built in USB to Serial converter chip •Provides 500mA power direct from the USB port and 3.3V level RX/TX pins •Raspberry Pi not included

MCM Part #	ONLY
83-14392	$8.99

SIM Card Breakout Board



•LinkSprite 6-pin breakout board for SIM socket •Allows direct access to SIM communications

MCM Part #	(1-9)	(10-up)
83-15174	$9.99	$9.89

Headers

adafruit 5-Pack

Configurable Spring Terminals

Spring terminal blocks will simplify your wiring and make your project more rugged. Instead of soldering wires to your perf board, just solder in these 0.1" pitch terminal blocks, and re-wire a
needed. **Features:** •Available in right-angle or str
configurations •Spring-loaded for quick connec
•Accepts up to 20AWG wire •3 connections per
•Snap units together for more connections

MCM Part #	Configuration	(1-9)
28-17469	Right angle	$4.49
28-17470	Straight	5.99

ARDUINO

ARDUINO .1" 40x1 Pin Strip

This board to cable pin strip is perfect for conn
your projects together. **Features:** •0.1" pitch, per
breadboarding •40 pin strip can be clipped to m
perfect number of pins for your application •G
JTAG and communications connections

MCM Part #	(1-9)
83-14693	$0.99

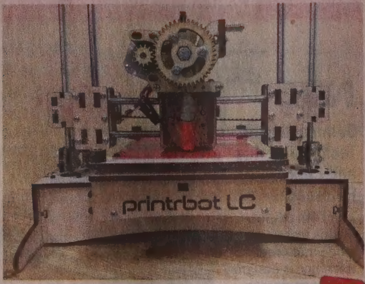
3D Printers

NEW!

Printrbot Jr. 3D Printer

The Printerbot Jr. is a great choice for beginners to 3D printing. It is small, portable, and affordable **Features:** •Print toys, gears, prototypes, and just about anything else you can imagine out of plastic without expensive production equipment •4" x 4" x 4" build volume •Simpler design doesn't require a headed platform •PLA only (does not work with ABS) •PLA is a non-toxic and biodegradable plastic that melts at a lower temperature, so it is a great choice for kids •Astonishingly light at 6.3 lbs. not including the power supply •Compact, the bed folds up for easy carrying and packing •Available preassembled or as a kit

MCM Part #	Description	ONLY
310-0001	Kit	$399.00
310-0005	Preassembled	499.00

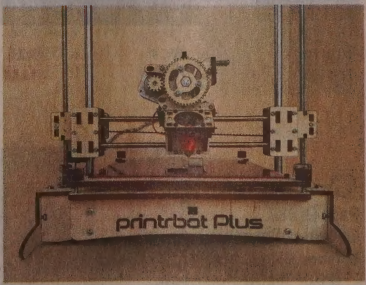


PRINTRBOT **NEW!**

Printrbot LC 3D Printer

The Printerbot LC is a great first 3D printer with a larger build volume. **Features:** •Print toys, gears, prototypes, and just about anything else you can imagine out of plastic without expensive production equipment •Laser cut birch construction for a beautiful finished appearance •6" x 6" x 6" build volume •Heated build platform lets you print with PLA or ABS plastic •Takes 1.75mm plastic filament (approximately ½lb included) •Glass for heated build platform not included •Available preassembled or as a kit

MCM Part #	Description	ONLY
310-0002	Kit	$649.00
310-0006	Preassembled	799.00



PRINTRBOT **NEW!**

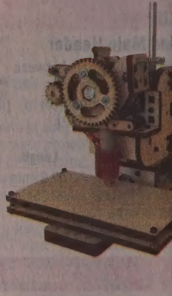
Printrbot Plus 3D Printer

The Printerbot Plus is a great first 3D printer with the largest built volume of any Printrbot. **Features:** •Print toys, gears, prototypes, and just about anything else you can imagine out of plastic without expensive production equipment •Laser cut birch construction for a beautiful finished appearance •8" x 8" x 8" build volume •Heated build platform lets you print with PLA or ABS plastic •Takes 1.75mm plastic filament (approximately ½lb included) •Glass for heated build platform not included •Available preassembled or as a kit

MCM Part #	Description	ONLY
310-0003	Kit	$799.00
310-0007	Preassembled	999.00

PRINTRBOT

Printrbot Simple

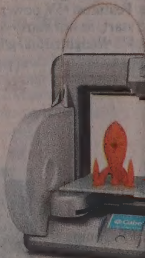


The Printrbot Simple is an exercise in 3d printing minimalism. It includes only what is needed to get started in the world of 3D printing. **Features:** •0.1mm resolution (and beyond) •100mm cube of printing volume (~3.5" cube) •Printrboard electronics •PLA only (no heat bed) •Ubis 1.75mm Hotend •60lb fishing line act as X & Y belt •12v 6A laptop st power supply •Outer dimensions: 7" x 8" x 9" • total weight •½ lb 1.75mm PLA filament •Avai preassembled or as a kit

MCM Part #	Description
310-0091	Kit
310-0092	Preassembled

3D SYSTEMS

Cube 3D Printer 2nd Generation



The Cube Printer 2nd Generation is a personal single head 3D printer based on Plastic Jet Printing (PJP) methods. **Features:** •Prints 3D objects with ABS or PLA plastic •Maximum creation size: 5.5" x 5.5" x 5.5" •Layer thickness: 200 microns, or 0.2mm (.008") •Prints single color at a time •Requires Cube printer cartridge, available in 1 •Plug and Play simplicity and WiFi connectivit for very fast and easy use •Requires Cube softw (included) •Includes neon green print cartridge Dimensions without cartridge: •10" x 10" x 13" •Weight: 9.5 lb.

MCM Part #	Color	(1-9)

SCHURTER 57 Series Miniature Vandal-Resistant Pushbutton Switches

The 57 series pushbutton switches are miniature, rugged panel sealed with a round button and bezel. A lockout is supplied with each switch. Manufactured of non-spark zinc alloy and chrome velour plated. Panel is sealed to IP67 and is designed to be impact resistant. The illuminated version is available with a choice of two high brightness LED colors: Red or green. **Features:** •Momentary action •Travel (Nom): .09" (2.3) •Current rating: 400mA @ 32VAC resistive, 100mA @ 50VDC resistive, 125mA @ 125VAC resistive •Operating temperature range: -40°~257°F illuminated, -31°~185°F non-illuminated

MCM Part #	Mfr. #	Description	Color	(1-9)	(10-Up)

ITW Switches 76-95 Series Vandal-Resistant Pushbutton Switches

SENSORS, SWITCHES, ELECTRONIC CONTROLS

The 76-95 series pushbutton switches are designed to withstand impacts of significant force. The bezel protrudes a maximum of 0.10" (2.5mm) from the front panel, including sealing washer. Panel thickness: .06"~.3" (1.5 to 8mm). Panel sealed to IP67.**Specifications:** •Momentary action •Operating remperature range: -22°~221°F •Form Z: 5A @ 125/250VAC, 3A @28VDC Ind.

SCHURTER Vandal-Proof Latching Action Switches

Features: •The new MSM LA has a push-on push-off latching function •In the OFF state, the actuator position protrudes; in the ON state, it is depressed •This provides a user-friendly actuating function and also prevents inadvertent switching, e.g. caused by objects leaning on the switch •The new MSM DP switch is designed with two separate switching contacts and may thus be used as normally open, normally closed or as change-over •Point and ring illuminated versions in different colors are available •IP67 sealed **Specifications:** •Contact rating: MSM DP 3A at 250 VAC and 5A at 125 VAC MSM LA 12A at 30VDC or 250VAC •Circuitry: MSM DP DPST; MSM LA SPST •Temperature range: -13°~185°F

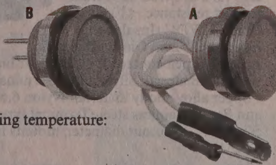
SCHURTER Pushbutton Vandal-Resistant Switches



Piezo, capacitive and electro-mechanical switches are for heavy-duty use in highly exposed areas and extreme environments. Piezo switch types meet MIL STD 202 and European Railway Standards, Ex type for explosion-proof environments. All are seal (IP rating) IP67, except MCS19 series which is IP65 (switching unit). Lifetime >20 x 106. Operating temperature: -4°~140°F. All are panel hole mounted. All switches are CE certified.

SCHURTER

MSM CS Series 19mm/22mm Vandal-Proof Pushbutton Switches

Equipped with an actuator made of highly durable ceramic which is resistant to scratches, abrasion, impact and chemicals. The non-illuminated version has a translucent white actuating surface. Lettering and symbols can also be applied.
Features: •Meets vandal-proof demands due to the low profile of the front structure (1.7 mm), the IP 69K protection class and the high level of impact resistance •Equipped with quick connect terminals to allow for fast connections •Wires are connected to the switching element which is subsequently snapped onto the switch housing

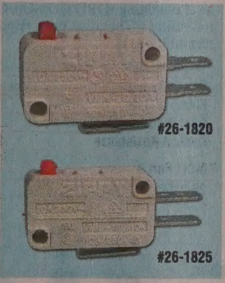
py Micro Switch



avy-duty SPDT ro switches are nmonly used replacements oysticks and hbuttons. ilable with ¼" ⅛" male tab nections. Switch y measures ⅝" (H) ⅛" (W) x ⅜" (D).

CM Part #	Connection	ONLY
-1820	⅛" (0.187")	$1.17
-1825	¼" (0.250")	1.99

ominiature Micro Switch with ller

miniature SPDT micro switch ommonly used as a replacement dator door switch. Switch body sures ⅜" (H) x ¾" (W) x ¼" (D) and ⅛" male tab connections. Actuator is ¾" in length, including roller.

M Part #	ONLY
1830	$4.05

i Push Button Switch

rrent Rating: 3A, 125VAC; 1.5A, VAC •Contact Resistance: 50m n max •Insulation Resistance: 500V 100m Ohm min. •Dielectric ngth: AC 1000V for 1 minute dy Material: Nylon (94-V2) minal Material: Silver plated s •Terminal Type: Solder

M Part #	Type	Action	Actuator	(1-9)	(10-up)
4590	SPST	(On)-Off	Red Nylon	$1.99	$1.58

LORLIN Two-Position SRL Series Rotary Keylock Switches

Features: •Silver plated brass contacts •Spare keys are available for common key profile •Each key switch is provided with two keys, random or common profile **Specifications:** •Switch rating: 5A at 115VAC •Lock type: Five disc •Indexing: 90° •Switch chamber: Polyester (PBT) V0 rated •Keys: Nickel plated steel

MCM Part #	Mfr. #	Circuitry	Key Removal Position	Key Type	(1-9)	(10-Up)

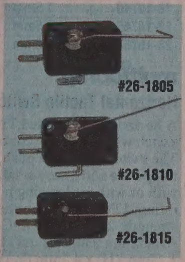
Coin Switches



Heavy-duty SPDT micro switches include three different types of preformed actuator arms to fit a variety of applications. Switch body measures ¹¹⁄₁₆" (H) x 1³⁄₁₆" (W) x ½" (D), and has ¼" male tab connections.

MCM Part #	Description	ONLY
26-1805	Single bend	$6.60
26-1810	Straight actuator	4.11
26-1815	Double bend	14.64

Micro Switch with Wire Actuator

Sub miniature SPDT micro switch includes attached 4" wire actuator, which may be formed as desired. Switch body measures ⅜" (H) x ¾" (W) x ¼" (D) and has ⅛" male tab connections.

MCM Part #	ONLY
26-1845	$4.11

Sealed Miniature Push Button Switches

•Fully shielded with IP67 protection against instruction of dust and liquid •Max rating with resistive load: 400mA 32VAC; 100mA 50VDC; 125mA 125VAC •Initial contact resistance: 50m Ohm max. •Insulation resistance: 1G min. at 500VDC •Dielectric strength: 1000VAC RMS •Electrical life: 500,000 cycles •Mounts in 0.50" mounting hole, up to .157" think panel •LED Specifications (at 20mA): •Red: 2.1V typical, 2.6V max •Green: 2.0V typical, 2.6V max •Yellow: 2.1V typical, 2.6V max •Blue: 2.8V typical, 3.2V max

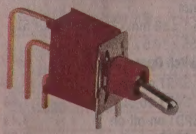
multicomp Miniature Toggle Switches

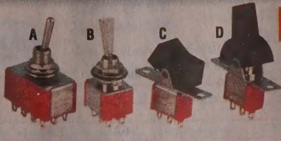
- Gold plated contacts for low level switching
- Mounting bracket solders directly to PCB
- Plain bush for easy front panel removal
- Epoxy terminal seal, compatible with bottom-wash cleaning
- Horizontal Mount, DPDT

MCM Part #	ONLY
26-2175	$1.49

Technical Data	
Switching Capacity	0.4VA at 20V ac/dc
Contact Resistance	10mohm at 4Vdc
Insulation resistance	1000MR
Dielectric strength	1000V rma
Mechanical Life	30,000 Cycles
Operating Temperature	-30°C to +85°C
Dimensions	12.7 x 11.43 x 12.7 mm



multicomp Miniature Switches



Features: •Copper alloy contacts, gold or silver plated •Epoxy sealed terminations **Specifications:** •Silver plated contacts: 5A @ 28VDC or 115VAC resistive load, 2A @ 250VAC •Gold plated contacts: 0.4VA @ 20V max. AC/DC •Electrical life: 40000 operations •Contact resistance: <10mR @ 4VDC 1A •Bush thread: ¼" x 40 NS •Lever length: 10.4 •Operating temperature: -22°~+185°F

ise Assortment

CM fuse assortment contains popular automotive and electronic fuses.
ve money over purchasing separately and have fuses in convenient storage
x. Kit contains popular values of 5 x 20mm, auto blade, auto mini blade,
d 1¼" x ¼" fuses. Kit contains 20 each of the following UL listed 5mm x
mm fast acting fuses: 1A, 1.6A, 2A, 2.5A, 3A, and 5A. Also contains 5
ch of the following automotive blade fuses: 5A, 10A, 15A, 20A, 25A, and
A. Also contains 10 each of the following automotive mini blade fuses:
, 10A, 15A, 20A, 25A and 30A. Also contains 10 each of the following
L listed 1¼" x ¼" fast acting fuses: 1A, 3A, 5A, 7A, 10A and 15A.

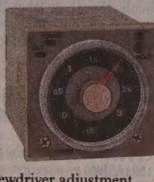
TYCO Original Relay

Commonly used in automotive security, lighting and audio applications. SPDT contacts handle 30A. Compatible with standard 5 pin relay sockets. Tyco #0-332-209-150.

MCM Part #	(1-9)	(10-up)
26-534B	$4.19	$4.09

Dual Mode Time Delay Relay



Highly versatile 8 pin timer relays are designed for industrial control, and have a variety of custom design applications including power-sequencing, speaker protection delay and process control. Simple screwdriver adjustment allows selection of numerous time ranges from 0~1.2 seconds, to 0~300 hours, and the timing modes. Compact unit measures 45mm x 45mm x 80mm, and fits industry standard 1/16 DIN panel openings. Compatible with standard 8 pin sockets (available separately), DPDT contacts are rated at 5A (250VAC or 30VDC). **Timer modes: •Mode A (on-delay):** Power is applied to the coil. After preset time the relay energizes and remains energized until power is removed. **•Mode E (one- shot):** Power is applied to the coil. The relay energizes immediately and remains energized for the duration of the time setting, and then de-energizes. To re-energize, the power must be removed and reapplied. Accepts any voltage from 24~240VAC, or VDC.

Five Pin Relay Socket

Compatible with popular Bosch and similar four and five pin automotive relays. Provides two 16AWG conductors for coil voltage supply, plus three 14AWG conductors for SPDT contacts. Stripped and tinned leads are 9" in length.

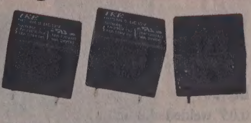
multicomp

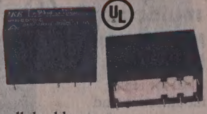
PC Mount Relays



Ideal for repair, modification and prototype work, these compact relays in SPDT (1 form C) configuration. Silver alloy contacts provide high reliability and increased electrical life. **Specifications:** •Contact rating: 10A @ 125VAC/12VDC •Coil consumption: 360mW •Mechanical life expectancy: 10,000,000 cycles •Electrical life expectancy: 100,000 cycles •Dimensions: 0.46" (H) x 0.61" (W) x 0.41" (D)

MCM Part #	(1–9)	(10–24)	(25–up)
26-543	$1.39	$1.19	$0.99

multicomp



PC Mount Relays

Ideal for repair, modification and prototype work, these small double pole, double throw relays feature silver alloy contacts and are TV–5 and UL class F rated. **Specifications:** •Contact configuration: 2 form C, (DPDT) •Contact rating: 5A @ 250VAC/30VDC •Coil consumption: 540mW •Mechanical life expectancy: 10,000,000 cycles •Electrical life expectancy: 100,000 cycles •Dimensions: 0.81" (H) x 1.14" (W) x 0.50" (D)

Bottom

General Purpose Relays

Heavy-duty relays utilize standard 8 pin or 11 pin configuration, making them compatible with many industrial control applications. They have countless uses in custom design of AC or DC lighting, sound and automation control applications. Contacts are rated at 10A (250VAC or 30VDC). Relays are compatible with standard 8 and 11 pin relay sockets (available separately).

MCM Part #	Pins	Coil	Coil Current	Type	(1-3)	(4-9)

Project Boxes and Matching PC Boards

Compact boxes are perfect for a variety of custom design and prototype applications. ABS construction is easily cut or drilled, and metal top plate provides partial shielding as well as professional appearance. Matching prototype boards are available for each box size, greatly easing assembly. Boards are predrilled with solder pad holes at 0.10" spacing. Boxes include top plate and board mounting hardware. Boxes and matching PC boards are designated with the same model letter.

Watertight NEMA Diecast Aluminum Enclosures

Watertight aluminum diecast enclosures are designed to meet IP65 (dust and hose proof). These enclosures are perfect for housing sensitive electrical, pneumatic, hydraulic and electronic assemblies. They feature natural finish, a recessed silicon rubber gasket and captive, recessed stainless steel lid screws. Wall mountable using "through-box-blind hole" construction outside of gasket protection. Certified to NEMA 4X standards (UL508)-file# E65324

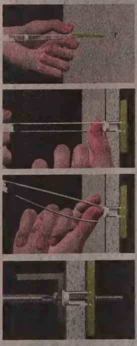
TOGGLER® SnapSkru® Self-Drilling Drywall Anchor

The industry's first self-drilling drywall anchor that does not destroy the drywall when using the anchor. The SnapSkru® anchor significantly outholds all other self-drilling drywall anchors by more than 60% in ½" drywall, and by more than 80% in ⅝" drywall. The SnapSkru MINI anchor makes only a small ¼" hole. Its small head hides behind the fixture and always sits flush with the wall.

MCM Part #	Mfr. #	Description	Quantity	ONLY
28-11016	30011	w/o screws	100pk	$19.99



TOGGLER® SnapToggle® Heavy-Duty Anchors

Turn a two person job into a one person job and get the job done faster. You can even pre-install without using a bolt for final installation later. The SnapToggle® anchor is a convenient, reliable, accurate, easy-to-use anchor, and the strongest toggle bolt in the smallest hole.

MCM Part #	Mfr. #	Description	Quantity	ONLY

Freescale Tower Robotics Kit

Explore the world of robotics with the Freescale Mechatronics kit. The Tower System mechatronics board combines 32-bit computing, sensors, actuator control and wireless into a single stand-alone board with an on-board battery supply. The Tower System mechatronics board has a 32-bit ColdFire microcontroller with 64K of RAM, 512K of flash and supports the full range of Freescale Xtrinsic sensors via plug-in daughter boards. The board can directly control up to eight actuators (PWM-controlled RC servos) via the eight industry standard 3-pin connectors. Freescale's robot is a sensor development kit in the form of a four degrees of freedom (DOF) bipedal walking robot, included are simple development tools that will help you learn to write software for sensors, while making a robot walk and respond to touch, motion, vibration, tilt and other external stimuli. **Includes:** •Tower System mechatronics board •4x PWM controlled RC servos •Leg mechanics and associated hardware •Bipedal 4DOF walking robot assembly instructions •Tower System mechatronics board user guide •Quick Start Guide

MCM Part #	ONLY
28-17543	$260.49

Snap Circuits Rover

The RC Snap Circuits Rover is a mobile, radio-controlled Snap Circuits platform. Build the 23 included projects and create many of your own circuits with the ample circuit-building space on top of this four-wheeled chassis. The included manual has projects that explore the fundamentals of circuit design and radio control. Upgrade to the Deluxe rover that adds a disk-shooter, sound recorder and lots of other components and kit ideas. **Features:** •Includes multi-function remote •Loads of projects in the manual •Fun and educational circuit design •No soldering required, the parts snap together •Requires 6AA and one 9V battery

MCM Part #	Description	(1-9)	(10-up)

28-17635	Deluxe	97.99	96.55

Pololu Robotics & Electronics

Zumo Robot Kit

The Pololu Zumo is a small, tracked robot platform that is less than 10 cm on each side, small enough to qualify for Mini Sumo competitions, and works with a variety of micro metal gearmotors to allow for a customizable combination of torque and speed. With the included Zumo blade, and shield which includes a dual motor driver, buzzer, three-axis accelerometer and compass, you have the beginnings of an Arduino-controllable robot that can really throw its weight around! **Features:** •Use with Arduino Uno or Leonardo •Select from a wide variety of gear motors •Runs on four AA batteries (not included) •Qualifies for Mini Sumo competitions •Bare tread-chassis also available for projects •Arduino, gearmotors, and soldering required

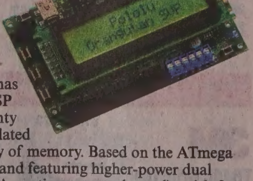
MCM Part #	Description	ONLY
28-17625	Robot Kit	$40.95
28-17654	Tread-chassis	17.95

CUBELETS Modular Robotics Kit

The KT06 kit contains 6 Cubelets and is a great way to get started with modular robotics. With KT06, you can create simple mobile and reactive Cubelet robots. **Features:** •Action Cubelets: 1 Drive, 1 Flashlight •Sense Cubelets: 1 Brightness, 1 Distance •Think Cubelets: 1 Battery, 1 Passive •Recipe cards to get you started •Charger sold separately

MCM Part #	Item	ONLY
28-17868	Cubelets Kit	$159.95
29-6345	Charger	14.95

POLOLU Orangutan SVP Robot Controller



Available assembled, or as a kit, the Orangutan SVP robot controller has a built-in AVR ISP programmer, plenty of I/O lines, regulated power, and plenty of memory. Based on the ATmega microcontrollers and featuring higher-power dual motor drivers (2 A continuous per channel), a 16×2 LCD, and a demultiplexer for easy control of up to eight servos, the Orangutan SVP makes a great starting point for your robot or electronics project. **Features:** •High-power (2A) dual motor drivers •16×2 LCD •Demultiplexer for control of up to eight servos •Built-in AVR ISP programmer •21 free I/O lines

MCM Part #	Processor	Memory	Assembly	ONLY
28-17698	ATmega1284P	128 KB	Assembled	$97.95

Pololu M3pi Robot

olu 3pi robot is a complete, high-
nance mobile platform featuring two micro
gearmotors, five reflectance sensors, an 8x2
ter LCD, a buzzer, and three user pushbuttons,
nected to a C-programmable ATmega328
ontroller. Capable of speeds exceeding 3 feet
ond, the 3Pi is a great first robot for ambitious
ers and a perfect second robot for those looking
e up. Those looking for even more processing
can get the M3Pi, or upgrade their existing 3Pi
e M expansion. This allows for the use of an
mbed 32-bit development board as the robot's
vel controller. On the other hand, those looking
ly add additional connectors or sensors can
econd level PCB for even greater expansion
lities. **Features:** •3Pi and M3Pi come fully
led •Up to 3 feet per second speed movement
ternal AVR ISP programmer is required
ed by 4 "AAA" •Widely configurable for sensors
ssories

Micro Metal Gearmotors

NEW!

cro metal gearmotors are available in a wide range of gear ratios—from 5:1 up to
—and offer a choice between three different motors: high-power (HP), medium-
MP), and standard. With the exception of the 1000:1 gear ratio versions, all of
ro metal gearmotors have the same physical dimensions, so one version can be easily
d for another if your design requirements change. **Features:** •24 x 10 x 12 mm Size (1000:1
m longer) •Optional rear un-geared motor shaft •A great high-torque/low speed option
for optimal running •Two tapped M1.6 mounts on face •Reversible

Current, No-Load Speed & Stall Torque measured at 6VDC

Fans

AC/DC Brushless Cooling Fans

MCM's line of square cooling fans will help you prolong the life and reliability of your computer, office machine, power supply and much more. Available in ball or sleeve bearing design.

AC Fans

•115VAC

MCM Part #	(A)	(CFM)	Size	Bearing	(1-9)	(10-up)
28-1690	.24	105	4⅝" x 1½"	Sleeve	14.99	14.24
28-1725	.24	105	4⅝" x 1½"	Ball	17.99	17.09

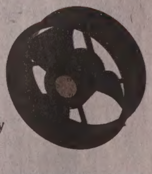
DC Fans

•12VDC

MCM Part #	(A)	(CFM)	Size	Bearing	(1-9)	(10-up)
28-1730	.10	5.4	1$\frac{9}{16}$" x ¾"	Ball	$9.99	$9.49
28-1735	.09	12.7	2⅜" x 1"	Ball	9.99	9.49
28-1740	.12	19.8	3⅛" x 1"	Ball	5.99	5.69
28-1745	.16	25.2	3⅝" x 1"	Ball	9.99	9.49
28-1750	.20	54.0	4¾" x 1"	Ball	9.99	9.49

multicomp

AC/DC Axial Cooling Fans

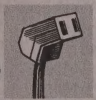


Keep your home or office equipment running cool and quiet. **Features:** •Available in round or square housing •Variety of power options available

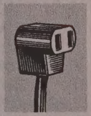
MCM Part #	Housing	Dimensions	Bearing	(1-9)	(10-up)
AC Powered					
28-11417	Round	10" x 3.5"	Ball	$69.49	$67.14
28-11418	Round	10" x 3.5"	Ball	69.49	67.14
28-11419	Round	10" x 3.5"	Ball	69.49	67.14
28-11420	Square	4.72" x 4.72" x 1.5"	Ball	13.49	11.01
28-11422	Square	4.72" x 4.72" x 1.5"	Sleeve	10.99	9.79
28-11423	Square	4.72" x 4.72" x 1.5"	Ball	11.99	9.65
28-11424	Round	6.77" x 6.77" x 2"	Ball	32.99	30.59
DC Powered					
28-11421	Square	40 x 40 x 6 (mm)	Vapo	9.99	8.77

Qualtek

Fan Power Cords



#28-4438



#28-4439

Tube-axial fan power cords with strain relief. UL listed 10A/125VAC and CSA certified 7A/125VAC. 24" SPT-1, two-conductor cord.

MCM Part #	Mfr. #	Description	ONLY

AIRCHILD
MICONDUCTOR®

d Semiconductor's portfolio of power ductors, discrete semiconductor, ignal and switch, logic, and tronic products serves diversified and applications, including mobile, ng, communications, consumer, onversion, LED lighting, motor network communications, industrial, omotive. Their high performance ductor products are optimized for ensitive and mobile applications. All cturing locations across Fairchild fied to ISO/TS16949:2002 industry ls to provide consistently reliable, nd high quality products.

MCMelectronics.com/Find

nally created as SGS
son Microelectronics
7, from a merger of SGS
electronica and Thomas
onductors, and renamed to
croelectronics in 1998. ST is
g the world's largest semiconductor
facturing companies with 12 main
facturing sites globally. Products are
y used in home entertainment, security
ppliance products, computer products,
e communication devices and in
e and powertrain control systems.

ON Semiconductor

ON Semiconductor is a premier supplier of high performance silicon solutions for energy efficient electronics. The company's broad portfolio of power and signal management, logic, discrete and custom devices helps customers efficiently solve their design challenges in automotive, communications, computing, consumer, industrial, LED lighting, medical, military/aerospace and power applications. ON Semiconductor operates a world-class, value-added supply chain and a network of manufacturing facilities, sales offices and design centers in key markets throughout North America, Europe, and the Asia Pacific regions.

National Semiconductor

ired by Texas Instruments in 2011, National
conductor manufactures top quality devices
ltiple countries around the globe. Their semiconductors
idely used in a variety of applications in the automotive,
dcast, communications infrastructure, industrial,
cal, military and aerospace industries.

The NTE semiconductor product line encompasses a wide variety of high quality devices, which meet Industrial, MRO and consumer electronics replacement needs. Upgrading with NTE semiconductors can reduce the frequency of repair and minimize replacement parts inventory. MCM stocks over 1000 items with access to NTE's complete line. Call MCM today with all your semiconductor requirements!

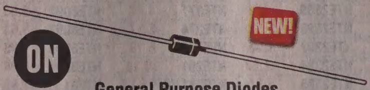
General Purpose Signal Transistors

NEW!

Industry standards for years, these complimentary transistors are popular for small signal amplification, and low current switching. Commonly used for operating relays, small lamps and other indictors. Both are in metal TO-18 packages.

MCM Part #	Generic #	Type	ONLY
115-2N2222A	2N2222	NPN	$0.74
115-2N2907A	2N2907	PNP	0.91



NEW!

ON Semiconductor

General Purpose Diodes

Commonly used in power supplies, motor controls, battery chargers and a variety of other DC power applications. **Features:** •Top quality, On Semiconductor® brand •Axial lead subminiature 59-10 molded epoxy case •Listed rating is peak repetitive reverse voltage •Models listed with RLG suffix are lead-free •Current rating 1A

Microchip 10-bit A/D Converter with SPI™ Digital interface

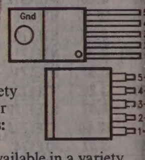
NEW!

This device is a successive approximation 10-bit Analog-to-Digital (A/D) converter with on-board sample and hold circuitry, in a 16 pin DIP package. It is often used to add eight analog input channels to the Raspberry Pi, which currently only provides digital interfacing. **Features:** •Programmable to provide four pseudo-differential input pairs or eight single ended inputs •Capable of conversion rates of up to 200ksps •Operates over a broad voltage range (2.7V~5.5V) •Low current design •Standby current: 5nA •Active current: 320uA •Mfr. #MCP-3008-I/P

MCM Part #	ONLY
116-MCP3008	$2.78

3A High Current Voltage Regulators

NEW!



Commonly used in a variety of power supply and other DC applications. **Features:** •Top quality, National Semiconductor brand •Available in a variety of fixed or adjustable voltage output ratings •Parts showing "S" are TO-263 surface mount package •Parts showing "T" are popular 5-lead TO-220 package •Parts showing "HV" accept up to 60VDC input, others are 40VDC

Class-T Digital Audio Amplifier IC

Due to its extremely high performance, high efficiency and ease of application, this state-of-the-art IC is used in many digital audio amplifiers including models from Lepai, Topping and many others. The TA2020-020 is a 20W (4 Ohm) continuous average per channel Class-T digital audio power amplifier IC, utilizing Tripath's proprietary Digital Power Processing (DPPTM) technology. **Features:** •Offers the audio fidelity of Class-AB and the power efficiency of Class-D amplifiers •Through-hole 32-pin SSIP package •A single 14.6VDC supply, with typical current draw of 5.5A (7A max), will provide 16.5W RMS, x two channels, driving a 4ohm load, with THD of less than 0.1% •See www.MCMelectronics.com for complete application information and specifications

MCM Part #	ONLY
TA2020-020	$3.99

NTE ELECTRONICS, INC.

Semiconductor Technical Guide and Cross Reference

The 14th edition of this technical guide and cross reference is designed to give engineers, technicians and buyers assistance in selecting the NTE component best suited to their application. **This new edition includes:** •Over 4,700 NTE devices, cross-referenced to over 384,000 industry part numbers •Expanded optoelectronic section •New power MOSFETS •22 new linear integrated circuits •14 new bi-polar transistors •New pink, purple and ultraviolet LEDs

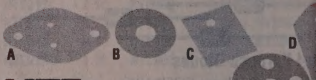
C	21-1175	TO-220 mica	25	2.29	1.83



NTE Transistor Insulators

NTE ELECTRONICS, INC.

NTE's thermo pads do away with the old-fashio mica wafer and conductive grease method of mounting power semiconductors. These therma conductive insulators offer low heat transfer res while still providing high electrical isolation bet the parts of the assembly. **Specifications:** •Silico fiberglass construction •0.009" thickness •Five p package •Visit mcmelectronics.com for complet specifications, dimensions and cross reference

AAVID THERMALLOY

ıre Heat Sinks ridge Rectifiers

ge heat sink specifically ned for square bridge iers •Measures 26.92mm re, 31.75mm tall •3.61mm r hole •Anodized aluminum

Part #	ONLY
1520	$1.49

AAVID THERMALLOY

Back TO-220 Heat Sinks

heat sinks are ideal for TO-220 es that require high amounts of dissipation. Constructed of black ized extruded aluminum, these sinks feature solderable pins for nstallation on PC boards or hment to metal chassis

Part #	Dimensions (mm)	ONLY
1530	50.8 x 16.26 x 16.26	$1.69
1532	38 x 16.26 x 16.26	4.89
1534	25.4 x 16.26 x 16.26	1.09

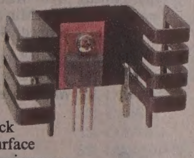
AAVID THERMALLOY

On Heat Sinks

anodized heat sinks esigned for quick, easy hment to the device. Dual side rovide additional heat dissipation.

Part #	Case	Dimensions (mm)	ONLY
1540	TO-220	11.18 x 28.45 x 11.8	$0.79
1542	TO-220	11.18 x 24.89 x 19.05	1.19
1544	TO-92	18.29 x 15.29	1.09

AAVID THERMALLOY



nel Style 20 Heat Sinks

cost black anodized sinks feature folded back r increased cooling surface improving performance in space cted applications. Indicated models include tabs for easy PC board mounting.

Part #	Tabs	Dimensions (mm)	ONLY
1550	No	24.13 x 48.26 x 50	$1.19
1552	Yes	24.13 x 48.26 x 50	4.09
1554	Yes	9.52 x 50.44 x 49.99	1.49
1556	Yes	24.13 x 48.26 x 29	3.59
1558	Yes	36.83 x 44.45 x 36.83	1.49
1560	No	36.73 x 33.02 x 37	1.99
1562	Yes	11.94 x 33.02 x 35.93	3.09
1564	Yes	25.4 x 39.37 x 25	1.09
1566	No	25.4 x 39.37 x 25	1.49
1568	Yes	19.05 x 80.8 x 41	3.09

AAVID THERMALLOY

Channel Style TO-220 Heat Sinks

Slim low cost black anodized heat sinks are designed for use with all TO-220 devices. Standard fin design provides sufficient cooling in most applications. Indicated models include mounting tabs.

MCM Part #	Tabs	Dimensions (mm)	ONLY
287-1580	No	21.6 x 19.8 x 17.8	$2.19
287-1582	No	12.7 x 25.4 x 29.97	1.49

Audio Transformers

TRIAD

PC Mount Audio Transformers

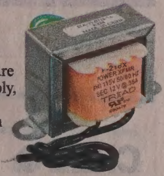
Highly efficient compact transformers are commonly used in a variety of audio interface circuits, including line matching, telephone coupling, pulse trigger, interstage and isolation situations.
•Frequency response: 200Hz~15KHz
•Max output: 100mW •Models listed below are center tapped, 1:1 ratio, having the same primary and secondary impedance

MCM Part #	Impedance	ONLY
287-1400	10K ohm	$3.49
287-1402	15K ohm	3.49
287-1404	600 ohm	3.49

Power Transformers

TRIAD

Power Transformers



Highly efficient transformers are designed for use in power supply, rectifier, or filter circuits. All models are single primary with center tapped secondary and include pigtail leads and bracket for surface mounting. All primary taps are 115VAC, 60Hz.

MCM Part #	Secondary Voltage	Current	ONLY
287-1410	6.3V	3A	$8.49
287-1412	12.6V	2A	9.49
287-1414	25.2V	2.8A	12.49
287-1416	25.2V	1A	8.99

12.6 Volt Power Transformer

•High-quality power transformer •Can be used in new equipment or as replacements •Heavy-duty casing has holes for chassis mounting •Standard solder lugs on the input and output •Primary: 117VAC, 60Hz •Secondary: Center tap 12.6V 1.2A •Dimensions: 2½" (W) x 1¹¹⁄₁₆" (H) x 1⅞" (D)

MCM Part #	ONLY
28-0010	$3.99

multicomp

Toroidal Transformer

•110/220 input, dual output

MCM Part #	OutputV	OutputA	ONLY
287-1000	6V x 2	1.25A	$11.99
287-1005	9V x 2	0.83A	11.99

Through Hole LEDs

CREE

5mm Round High Brightness LEDs

These round LED families offer superior light output for excellent readability in outdoor applications. The lamps are made with an advanced optical-grade epoxy that offers superior high-temperature and high-moisture resistance performance in outdoor sign and signal applications. The encapsulation resin contain UV inhibitors to minimize the effects of long-term exposure to direct sunlight, resulting in stable light output over the life of the LED.

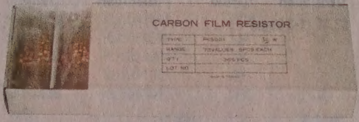
Carbon Film Resistor Kit ¼W

SET OF 610 RESISTORS E12 SERIES
¼W 5%

High-quality carbon film resistors with a connecting wire that is easily soldered. Applications: TVs, audio and video equipment, telephone receivers and communication systems, instrumentation, home appliances and more. **Specifications:** •Quantity: 610 pieces (10 pieces per value) •Series: E12 •Number of values: 61 (from 10E to 1M) •Operating temperature range: -67°F~311°F •Tolerance: 5% •Max operating voltage: 250V

MCM Part #	(1-3 kits)	(4-kits-up)
80-6665	$8.52	$7.74



ELENCO Carbon Film Resistor Kit ½W

•Contains five each of 73 standard values from 1Ω~1MΩ •365 total pieces

BK PRECISION
DCR & ESR
In-Circuit ESR Capacitor Tester

BK PRECISION

In-Circuit ESR/DCR Capacitor Tester

Specifically designed to measure ESR (equivalent series resistance) on capacitors in the range of 0.47~2200µF, in or out of circuit. The ability to trouble shoot in-circuit saves time and makes the 881 a must for anyone that tests or trouble shoots printed circuit boards. **Features:** •100KHz output test frequency •15mV p-p output test voltage (will not turn on an solid-state devices) •Automatically discharges the capacitor under test •Microprocessor controlled •One-handed tweezer test probe included •One year warranty •Visit mcmelectronics.com for complete specifications

Resistance Decade Box

Ideal for service, prototype and experimental use, this useful tool may be set at any resistance value from 1~11,111,110ohm, in one ohm increments. 28 individual slide switches allow the user to quickly and easily select resistor values. Wave soldered, two layer PC board utiliz high quality 1% tolerance ⅓W resistors. Maxim stray internal resistance is ⅓ohm. Color coded b posts provide resistor and ground connections. device requires no power source. Dimensions: 5¾" (H) x 4½" (W) x 1¼" (D).

Radial Electrolytic Capacitors

nichicon The capacitor choice. UNITED CHEMI-CON Panasonic

These high-quality electrolytic capacitors are excellent for use in repair, experimentation and prototype development. All capacitors are supplied by quality manufacturers Nichicon, United Chemicon or Panasonic. Capacitors are rated 85°C and 20% tolerance. Sorry-no mixing of values for quantity pricing.

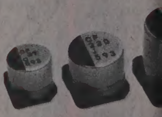
nichicon The capacitor choice. Conductive Polymer Aluminum Electrolytic Capacitors



•Ultra low ESR, high ripple current •Surface mount •Low impedance, high frequency, anti-solvent feature •Tolerance: ±20% •Operating temperature: -55°C~+105°C •Load life of 2000 hours at 105°C •Visit MCMelectronics.com for dimensions and complete specifications

nichicon The capacitor choice. UNITED CHEMI-CON Panasonic

High Temperature 105°C Radial Electrolytic Capacitors

•Miniature, same size or smaller than standard temperature radial electrolytics •These high temperature capacitors are suitable for many consumer and industrial applications •All capacitors are supplied by quality manufacturers: Nichicon, United Chemicon and Panasonic

nichicon The capacitor choice.
UNITED CHEMI-CON
Panasonic

Very Low Equivalent Series Resistance (ESR)/ High Temperature 105°C/High Frequency Radial Electrolytic Capacitors

•Ideal for switching power supplies, computer monitors and all applications where high ripple regularly occur •Extremely
impedance, high reliability •All capacitors are supplied by quality manufacturers: Nichicon, United Chemicon and Panas

TENMA® LCR Meter

- ✓ *1,999 count display*
- ✓ *Seven capacitance ranges to 600µF*
- ✓ *Six resistance ranges to 20MΩ*
- ✓ *Five inductance ranges to 20H*

RATED ★★★★

Compact full featured meter provides inductance, capacitance and resistance (LCR) measurements. Quickly and accurately measure capacitance values up to 600µF in seven ranges, resistance to 20MΩ in six ranges and inductance to 20H in five ranges. **Features:** •3½ digit 1999 count display •Transistor h_{FE} measurement •Diode test •Audible continuity test •Low battery display •Comes complete with standard 9V battery, test clips and owners manual •See owners manual at MCMelectonics.com for detailed accuracy, resolution and test frequency specifications

Specifications	Range	Accuracy
Resistance	200Ω, 2KΩ, 20KΩ, 200KΩ, 2MΩ, 20MΩ	(0.8%+1)
Capacitance	2nF, 20nF, 200nF, 2µF, 20µF, 200µF, 600µF	(1%+5)
Inductance	2mH, 20mH, 200mH, 2H, 20H	
Dimensions	6.77" (H) x 3.27" (W) x 1.50" (D)

Axial Electrolytic Capacitors

These high-quality electrolytic capacitors are excellent for use in repair, experimentation and prototype development. All capacitors are supplied by quality manufacturers Nichicon, United Chemicon or Panasonic. Capacitors are rated 85°C and 20% tolerance. Sorry-no mixing of values for quantity pricing.

OSRAM

High quality Osram lamps from Sylvania are direct fit replacements for many original OEM models. They are quality manufactured to high Sylvania standards, providing performance that meets or exceeds original lamp specifications, at substantial cost savings. See www.MCMelectronics.com for complete cross reference information.

sistor Insulators

's thermo pads do away with the old-fashioned wafer and conductive grease method of mounting r semiconductors. These thermally conductive ators offer low heat transfer resistance while still ding high electrical isolation between the parts e assembly. **Specifications:** •Silicon/fiberglass ruction •0.009" thickness •Five per package t mcmelectronics.com for complete specifications, nsions and cross reference

MCM Part #	Type	(1-3 pkgs.)	(4 pkgs.-up)

21-1645	$5.99	$5.11

TRIAD

PC Mount Audio Transformers

Highly efficient compact transformers are commonly used in a variety of audio interface circuits, including line matching, telephone coupling, pulse trigger, interstage and isolation situations. •Frequency response: 200Hz~15KHz •Max output: 100mW •Models listed below are center tapped, 1:1 ratio, having the same primary and secondary impedance

MCM Part #	Impedance	ONLY
287-1400	10K ohm	$3.49

TRUSTED POWER BY DURACELL®

MAXIMIZE PRODUCTIVITY WITH RELIABLE POWER SOLUTIONS

NEW! DURACELL® QUANTUM®

THE WORLD'S #1 MOST ADVANCED ALAKALINE BATTERY*

Our most advanced and longest lasting alkaline battery ever. More active ingredient packed into Quantum's HI-DENSITY CORE™ produces more power. Improved Powercheck™ allows you to see remaining power at the press of a button. Guaranteed fresh for 10-years in storage.

DURACELL® PROCELL®

THE EFFICIENT POWER CHOICE

Packaged in bulk and individually date-coded for effective inventory management, the Procell line is designed for efficiency. Manufactured to strict specifications, they meet the highest standards of durability and longevity.

DURACELL® COPPERTOP®

WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

PREMIUM RELIABLE POWER

Get long-lasting and reliable power for the devices your business uses most. CopperTop batteries are engineered to deliver the right level of power for most electronics.

DURACELL® RECHARGEABLES

WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

STAY CHARGED LONGER, SO YOU CAN RECHARGE LESS

Reusable NiMH batteries for frequent-use or high-drain devices. Precharged Rechargeables come fully charged for immediate use.

DURACELL® SPECIALTY BATTERIES

WITH DURALOCK POWER PRESERVE™ TECHNOLOGY

Duracell makes dozens of specialty batteries for devices that may require smaller batteries or button batteries. It's reliable, efficient power in different shapes and sizes for the devices you depend on most at work.

WHETHER YOU'RE POWERING THE DEVICES YOU USE MOST OFTEN OR THOSE THAT ARE MOST CRITICAL TO YOUR JOB, DURACELL HAS A BATTERY ENGINEERED TO SUIT YOUR NEEDS.

3.6V Lithium Thionyl Chloride – High Temperature

A range of 3.6V lithium thionyl chloride batteries with excellent memory back-up characteristics, designed for high temperature applications. **Features:** •Non-rechargeable 3.6V lithium thionyl chloride cells •Extended temperature range -55°C to +130°C •Shelf life in excess of ten years •Extremely low self discharge (<1% per annum) •Excellent memory back-up characteristics •Hermetically sealed casing

Specifications

Type	Capacity	Max. Current Drain	(LxDia.)	Weight

ULTRALiFE
BATTERY & ENERGY PRODUCTS

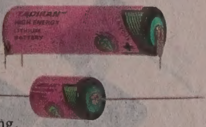
ULTRALIFE
9V LITHIUM BATTERY

ULTRALIFE 9V Lithium Battery

Ultralife 9V lithium battery lasts up to 10 years in devices. Lasts up to 4x longer than standard alkaline batteries. Ideal for smoke detectors, garage door openers, clocks, radios, remote control toys or any device that needs a high-quality 9V battery. UL listed and made in USA. Single packed 🟩

MCM Part #	ONLY
294-1950	$11.32

3.6V Lithium Thionyl Chloride - Axial and Polarised



A range of high capacity 3.6V lithium thionyl chloride batteries designed for long term stand-by applications. **Features:** •New improved capacity •Non-rechargeable cells •Designed for low current drain applications •Ten year shelf life •Extremely low self discharge (<1% per annum) •Wide operating temperature -55°C to +75°C •Hermetically sealed casing •45mm axial lead length

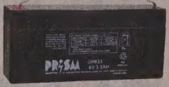
EVH Series Six Cell 12V 15.0Ah Lead Acid Battery

Designed specially for electric vehicles such as electric golf carts, electric wheelchairs, mowers, dust collectors, etc. Provides high cycling life, high efficiency and long service life. **Specifications:** •15Ah @ 20 hour rate capacity •Dimensions: 4.02" (H) x 5.94" (L) x 3.86" (W) •Weighs 9.92 lbs. •F2-Faston tab terminals •Mfr. #EVH12150F2

MCM Part #	ONLY
29-4645	$49.99

PRISM GH Series 6V 3.3Ah Sealed Lead Acid Battery



Designed for general purpose use and provides 3-5 years in standby service or more than 400 cycles at 50% depth of discharge. Economical, lightweight and quality constructed. Rechargeable. **Specifications:** •6V •3.3Ah @ 20 hour rate capacity •Dimensions: 2.64" (H) x 5.28" (L) x 1.34" (W) •Weighs 1.52 lbs. •F1-Faston Tab terminals •Mfr. #GH633

MCM Part #	ONLY
29-4650	$14.99

HR Series Six Cell 12V 21.0w/cell Lead Acid Battery

Designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. Good for up to 260 cycles at 100% discharge per cycle **Specifications:** •34W @ 15 min. rate capacity •Dimensions: 4.17" (H) x 3.54" (L) x 2.76" (W) •Weighs 3.97 lbs. •F2-Faston Tab terminals •Mfr. #HR1221WF2

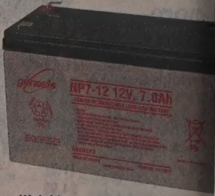
NP Series - General Purpose Float and Cyclic Sealed Lead-Acid Batteries



Offering a complete line of rechargeable batteries for a wide variety of applications. Use as a supply of back-up energy, or as a portable power source. The NP series can be stored, charged, or operated in any position without leakage. Qualified to non-spillable UN2800 standards. Standard housing is ABS resin. A flame-retardant version (to UL94-VO) is also available.

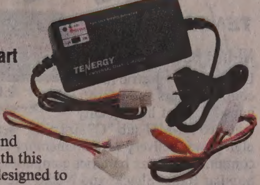
R/C Batteries

TENERGY



Universal Smart Charger for Ni-MH/Ni-Cd Battery Packs

Ensure a safer and better charge with this charger that is designed to charge any 5S-10S cell Ni-MH/Ni-Cd battery packs. It gives you a fuller charge for better performance and, over time, more cycles. Ideal for most Ni-MH packs for RC car and airsoft applications. Patent pending "Watchdog" technology provides maximum protection. **Specifications:** •6~12V •Selectable charging current selection 0.9A or 1.8A •Standard Tamiya and temperature sensor installed with charger, one set of female Tamiya to alligator clips and one standard female Tamiya to small male Tamiya included. •Mfr. #01025

MCM Part #	ONLY
29-5489	$24.99

TENERGY

Dual Power Balancing Charger

Designed to balance charge Ni-MH/Ni-CD/ Li-Ion/Li-Poly/ Li-Fe/SLA battery packs. Charges each cell individually to make sure they all get fully charged. When your batteries are charged correctly, they perform better. **Specifications:** •2.4~22.2V •50W •5A •Built-in power source •Store up to 10 different battery charging programs •LCD display charging indicator •Includes HiTech, JST, Tamiya, Mini Tamiya, Deans, Traxxas and EC3 charging connectors. •Mfr. #01322

MCM Part #	ONLY
29-5490	$79.99

4.8V

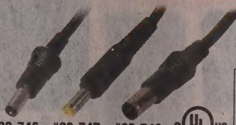
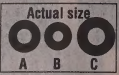
AC Adapters





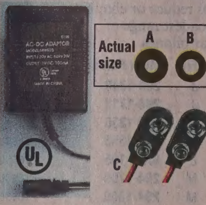
#23-746 #23-747 #23-748

DC Power Cords

Great for connecting laptop computers to bench-top DC power supply binding posts, or replacing damaged laptop power adapter cords. Simply cut-off the banana plugs and strip the leads if required to suit specific applications. 5' cord length.

Fig.	MCM Part #	Plug Dimensions (OD x ID x L)	ONLY
A	23-746	5.5mm x 2.5mm x 12.0mm	$4.36
B	23-747	4.75mm x 1.75mm x 12.0mm	4.36
C	23-748	6.5mm x 3.0mm x 12.0mm	4.36

Universal AC/DC Adapters



MCM's unique line of AC/DC adapters allow the user to select the best adapter and plug to suit the application. All adapters are UL listed. Input voltage 120VAC. Cord length 6'. Polarity can easily be changed by reversing the plug. Select the voltage and current rating for the adapter and select the appropriate plug for your application.

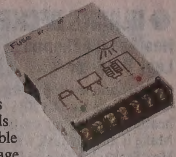
Portable Solar Panel Array

Compact briefcase style solar panel is ideal for providing temporary power. Perfect in emergency applications, or anywhere where generators are not practical and power is not available. Compact carry case weighs less than 10 lbs. and folds together for easy transport. It is ideal for charging 12V storage batteries, and includes a variety of detachable connectors for numerous applications. **Specifications:** •Output power: 13W max •Max voltage: 17.5V •Max current: 750mA •Dimensions (unfolded): •20.1" (H) x 26" (W) x 1.6" (D) •Weight: 9.7 lbs.

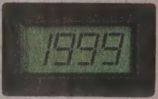
MCM Part #	(1–3)	(4–up)
28-11140	$164.00	$150.62



Solar Panel Charge Controller

Compact charge controller is ideal when multiple solar cells are used to charge rechargeable batteries. Selectable DC voltage provides flexibility for use with a wide variety of batteries and devices. Output voltage may be set at 3V, 6V or 12VDC, with maximum output current capacity of 4A. Optimal input voltage is 13.5VDC. Overall dimensions: 4.7" (H) x 3.1" (W) x 0.9" (D).

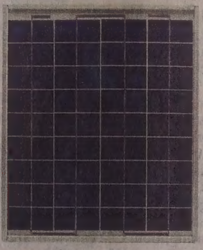
MCM Part #	(1–3)	(4–up)
28-11138	$41.49	$38.63



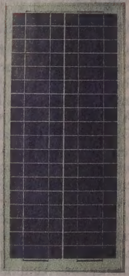
LCD Digital Panel Meter

•Low cost version •Single 8/12VDC (1mA) operation •High input impedance: > 100Mohm. **Specifications:** •Display: 3½ digit LCD •Input sensitivity: 200mVFS •Power supply: 9VDC (7~12VDC) •Decimal point selection with wire jumper •Automatic polarity indication •Figure height: 0.52" •Sampling rate: 2-3 readings/sec. •Guaranteed zero reading for 0V input •Accuracy: ±0.5% •Power consumption: 1mA DC •Size: 2.7" x 1.7"

MCM Part #	(1-4)	(5-up)
72-8100	$9.99	$8.83



#28-11154



#28-11158

Weatherproof Solar Panels

Perfect for charging 12V batteries, these fully weatherproof solar panels are great for a variety of alternative energy applications. A heavy-duty anodized aluminum frame provides strength and convenient mounting access. Cells are laminated between high transmissivity, low iron 3mm tempered glass and sheet tedlar-polyester-tedlar (TPT) material by two sheets of ethylene vinyl acetate (EVA). This protects against moisture penetrating into the module. Highly efficient mono crystalline cells provide typical service life of up to 25 years. When used to charge a storage battery, a separately available charge controller is required. **Specifications:** •Max power voltage: 17.6V •Open circuit voltage: 21.6V •**Operating temperature range:** –49°~+185°F •See www.MCMelectronics.com for complete specifications

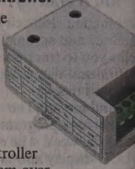
28-11160	50W	2.80A	449.00

3 Amp Solar Charge Controller



Depending upon the voltage of the battery and that supplied by the solar panel, the controller will adjust the charging current and decide if necessary to supply power to the load, keeping the battery at full voltage condition. The controller also prevents the battery from over charging or discharging, as well as preventing re of current back to panels during dark condition

MCM Part #
28-11150

Portable Solar Trickle Charger

Great for use with automobiles that often sit un for long periods of time. Panel simply lays on dashboard, plugs into cigarette lighter, and prov constant trickle charge to battery during dayligh hours. It is perfectly suitable for charging any st battery type, or for use as a portable power sour includes cigarette lighter cord, 3m cable with ba clips and four suction cups for windshield moun **Specifications:** •Output power: 1.5W max •Max voltage: 17.5V, 12.5V nominal •Max current: 12 •Dimensions: •4.7" (H) x 13.4" (W) x 0.6" (D)

MCM Part #	(1–3)
28-11142	$38.49

Compact Solar Cell with Integrated Battery

This solar panel is a pocket-size solar charger th can serve as a backup power source, and is ideal charging cell phones and other mobile devices. **Features:** •Output voltage: 5.5V •Output current 360~800mAH •Battery capacity: 1350mAH •C times: 12~15 hours (full sun), 20~25 hours (part **Includes:** USB charging cable with various plugs power supply, •Dimensions: 5" (L) x 2¾" (W) x

Colored IEC-60320-C14 to IEC-60320-C13 Jumper Power Cords

High quality Quail C14 to C13 jumper power cords in three bright colors provide quick, positive power source identification. These cords are extremely useful for IT network professionals to enable color coding of the many devices used in their installations. Use for network components, industrial devices, communication equipment, or any C13 compatible devices to help separate, code, or categorize equipment power sources. Every Quail product is rigorously tested to ensure long lasting, safe and reliable performance. All cords are three conductor. Universal Cords are also VDE listed.

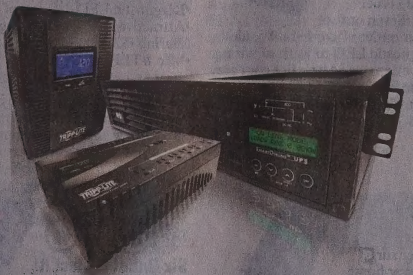
Cover Your Assets.

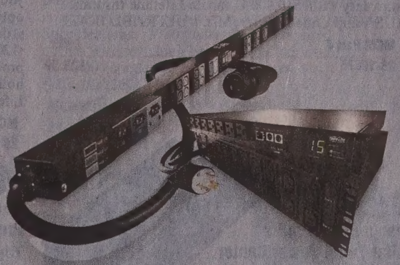
Are you doing enough to guard your expensive electronics against damage and downtime? With the unpredictability of power problems threatening your equipment, power protection is an essential part of protecting your electronic investment. Tripp Lite offers a wide variety of solutions to protect and power your modern lifestyle:



UPS Systems

Dependable battery backup keeps equipment running through power failures

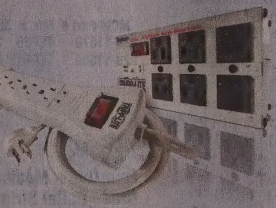
- High quality surge and noise suppression protects and maintains sensitive electronics
- Phone/DSL, Ethernet and coaxial surge protection options available



PDUs

Highly reliable power distribution, monitoring and control

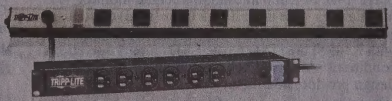
- Switched, monitored, metered, basic, hot-swap and ATS models available
- 1U, 2U or 0U (vertical) installation options



Surge Suppressors

Strong protection against damaging surges, spikes and line noise

- Built-in EMI/RFI noise protection
- Durable construction



Power Strips

Provide multiple outlets for all types of equipment and years of trouble-free service

- Circuit breaker prevents dangerous overloads
- Keyhole slots or flanges support wall, desk or counter installation

Tripp Lite offers a complete line of power and connectivity solutions!

UPS Systems | Racks | PDUs | Cooling | KVM | Connectivity | Display Solutions | Surge

For more information on Tripp Lite's entire line of over 2,500 power and connectivity solutions, visit **www.mcmelectronics.com** or contact your sales representative.

Digital UPS Systems

Tripp Lite Digital UPS Systems keep computer and home theater components running safely through short blackouts and allow enough time to safely shut down during longer ones. In addition, they also filter disruptive line noise and protect/support components through low power conditions or power conditions or power surges. Automatic Voltage Regulation (AVR) corrects brownouts without using battery power. An easy-to-read, LCD display rotates for easy viewing. With Tripp Lite Digital UPS Systems, you can easily monitor input voltage, UPS battery capacity, power status and more at a glance. You'll know you're well protected because you can see it in action!

TRIPP-LITE

Isolation Transformers

Tripp Lite Isolator series isolation transformers offer complete line isolation, continuous noise filtering and enhanced common mode surge suppression. Internal low-impedance isolation transformer component with Faraday Shield offers 100% isolation from the input AC line. Removes EMI/RFI noise, utility switching transients, background spikes generated by other on-site loads and utility or lightning related surge conditions. Additional surge suppression components placed at both the line input and transformer output combined with full line isolation offers continuous line filtering of a full range of power line noise in all modes. Active transformer filtering with no wearable parts is uniquely able to reduce surges in the worst of power environments to harmless levels. Reduces 6000V IEEE587 Cat A&B ring wave and combination wave test surges to only 0.5V common mode. Two year manufacturers warranty. Model IS1000HG is UL60601-1 medical-grade listed with hospital-grade plug and outlet receptacles.

TRIPP-LITE POWER PROTECTION

Network Surge Suppressors

Lightning, electrostatic discharges, ground surges and faulty wiring send surges along your network lines, causing glitches, lock-ups and hardware damage on your computer system. Tripp Lite Network Surge Suppressors end the threat of dataline surges. Installed directly at your data ports, they protect your computer's delicate internal circuitry with up to 300% more surge absorbing power than competitive models.

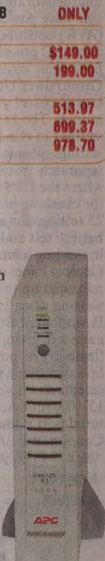
Back UPS RS



This high-performance desktop battery back-up features maximum protection in a versatile design. The fully featured APC Back-UPS RS can be placed on the floor, under a monitor or on a shelf. Six battery back-up outlets with automatic voltage regulation (AVR) enable you to work through even the most frequent brownouts and power sags, keeping 90/110 minutes of battery power for when you need it most. For printers and other devices that do not store or process information, two additional outlets provide surge protection. Both ethernet 10/100BaseT and telephone dataline surge protection safeguards against surges entering via network connections. The PowerChute Personal Edition software features easy-to-use safe system shutdown with sophisticated power management **Features:** •Lightning and surge protection preventing damage to your equipment from power surges and spikes •Internet fax, modem, DSL surge protection provides protection from surges and spikes traveling on the phone line •Resettable circuit breaker •Easy recovery from overloads; no need to replace a fuse •Automatic voltage regulation (AVR) corrects under-voltages and over-voltages without draining the battery •Building wiring fault indicator immediately warns you of wiring problems like improper grounds that could cause shocks or prevent adequately suppressing surges •USB compatibility and connectivity ensures quick and easy installation of the free PowerChute Personal Edition Software •Eight recepticles

NTE ELECTRONICS, INC. COAST

LED Leflectors™ MR16 12V Replacement Bulbs

The Leflector™ replaces MR16 halogen lamps u 20W. Designed for extreme energy efficiency, bri and durability. Parabolic Leflector™ collects and focuses light and adjusts to flood or spot beam. Flood Leflector™ has a wide beam to illuminate large areas. Spot Leflector™ has colored LEDS to provide true colored light. Spotlight beams highlight interior or exterior features and are great for club lighting. No filament to ever break or wear out. Burns cooler than halogen lamps. Up to 50,000 hour lamp life and saves u 90% of the cost to operate a 20W halogen bulb.

Lamps with
Light Chips

based LED lamps e ideal energy retrofit efficient, short lived descent and even fluorescent . Top quality CREE light chips are used for superior and consistent light output, lumen and color enance, and extremely long life. They're good for both general and task-oriented illumination applications. res include flicker free start, wide operating temperature range, and no ballast. Lamps marked DIM are able. Use current manufactured dimmers with a rated power no higher than 700W. **Additional Features:** ain no mercury •Heavy-duty constructed for shock and vibration resistance •Ultra Low IR/UV on •Average life 40,000 hours plus •Color Rendering Index greater than 80

Volt Non-Relampable Red Indicator

relampable solid state lamp with polycarbonate Solid state indicator light features built-in nt-limiting resistor and rectifier diode. /G wire leads. Stainless-steel bezel. fits into 0.505" diameter hole in s 0.100" thick. 1091M5-125VAC.

Part #	(1-4)	(5-up)
90	$4.78	$4.34

red Sub-
ature Bulbs

ge of 12V, 65mA lamps available in two colors. fitting. 3 (dia) x 8mm. 28mm wire length.

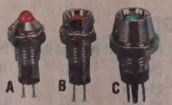
Part #	Color	(1-9)	(10-up)
318	Red	$0.50	$0.43
320	Blue	0.54	0.43

Holder

ome metal LED holder ubber base to hold the Accepts 5mm dia LEDs. ting hole: 8mm.

Part #	(1-9)	(10-up)
438	$0.96	$0.90

IMLEC LED Indicator Lights



Indicator lamps with chrome-plated brass bodies. Type 406 features macrodome lens. Voltage range from 2~24V with built-in resistor. Type 407 has large dish-shaped reflector around LED to produce a larger illumination area. Panel hole for both types: 0.244" for 2 volt models and 0.280" for 12 and 24 volt models. Type 440 is a larger version of type 407 to provide even greater illumination. Panel hole: 0.335".

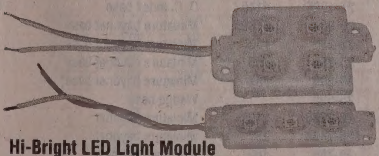
multicomp

12mm Neon Indicators, Rear Panel Mounting

These low profile neon indicators require only 9mm clearance behind the panel. The neon is rear panel mounting and snaps into the lens making a simple and secure mounting. An appropriate resistor is incorporated in the body moulding. **Features:** •Length: 31 (excl. leads) •Depth behind panel: 9 •Lens: 2.5 x 12 dia. •Panel cut-out dia.: 9.5, panel thickness = 2 max. •Termination: 200mm PVC flexible leads

MCM Part #	Color	(1-9)	(10-Up)
25-4870	Amber	$1.49	$1.28
25-4875	Green	1.99	1.70
25-4865	Red	1.49	1.29



Hi-Bright LED Light Module

•ABS plastic housing with transparent epoxy seal around the LEDs •50/50 ultra-bright LED chip •Adhesive backing for quick installation •Terminated in bare leads **Specifications:** •Input voltage: 12VDC •Working Temperature: -20°C to 40°C Storage Temperature: -25°C to 60°C •Life expectancy: >30000 hours •IP65 rated

DREMEL

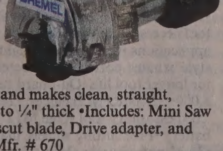
Lawn Mower and Garden Tool Sharpener

•Sharpen your lawn mower blades with ease •Other garden tools such as shovels, shears, hoes and axes can also be sharpened •Sharpener attaches easily to most rotary tools •Includes sharpening attachment and 932 Aluminum Oxide Grinding Stone •Mfr. # 675

MCM Part #	ONLY
22-16536	$8.99

DREMEL

Mini Saw Attachment



•The Dremel Mini Saw attaches to the rotary tool in seconds and makes clean, straight, perpendicular cuts up to ¼" thick •Includes: Mini Saw attachment, Rip/Crosscut blade, Drive adapter, and Instruction Manual •Mfr. # 670

MCM Part #	ONLY
22-16532	$29.99

DREMEL

Plunge Router Attachment

•Turns your corded Dremel rotary tool into a mini plunge router perfect for forming decorative edges, cutting straight slots or routing freehand •Plunge lock-in handle for fast and easy plunge locking •Two depth stops with quick release for rapid adjustment of routing depth •Clear base for greater visibility of the work surface •Depth guide includes English and Metric markings •On board storage for router bits and wrench •Includes plunge router attachment, edge guide, circle cutting guide and mounting wrench •Mfr. #335-01

MCM Part #	ONLY
22-16544	$29.99

DREMEL

Detailers Grip Attachment Kit

•The grip attachment offers enhanced grip and comfort for more detailed applications •Quick and easy extra support for any rotary tool with a threaded nose piece •Transfers weight of the tool to palm of your hand for enhanced tool balance and control •Provides optimal tool control when precision is required •Includes grip attachment, engraving cutter and tracing stencil •Mfr. #A577

MCM Part #	ONLY
22-16538	$16.99

DREMEL

Dremel Chuck

•The Dremel Chuck holds Dremel accessories without using a collet •Eliminate having to use the wrench •Perform quick and easy accessory changes •Simple attachment to any standard Dremel rotary tool •Mfr. #4486

MCM Part #	ONLY
22-16500	$9.99

DURATOOL

3.6 Volt Lithium-Ion Cordless Mini Rotary Tool Kit

•Multi-purpose rotary tool is ideal for precision applications like engraving, and polishing but powerful enough for drilling, cutting, sanding, grinding and cleaning •Keyless chuck with four collets for easy bit change •Rotary dial to adjust speed •Battery gauge to show remaining battery charge •Stall protection protects motor and battery in event of a stall •Charging time: 5~7hr •No load speed: 0~18,000rpm **Includes:** •30 piece accessory kit •3.6V Lithium-ion battery •Battery charger

MCM Part #	ONLY
22-13785	$19.99

DURATOOL

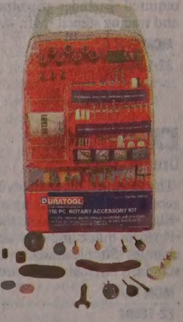
9.6 Volt Cordless Rotary Tool Kit

•Designed for drilling, routing, engraving, polishing, cutting, grinding and sanding of wood, metal, plastics and stone •Rotary dial to adjust speed •Three different collets included to attach a variety of bits •Charging time: five hours •No load speed: 8,000~20,000rpm **Includes:** •45 piece accessory kit •9.6V Ni-Cad battery •Battery charger •Clear-top aluminum storage case

MCM Part #	Description	ONLY
22-13790	Cordless rotary tool kit	$25.99
22-13791	Replacement 9.6V battery	10.39
22-13792	Replacement battery charger	8.31

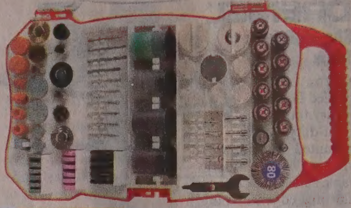
DURATOOL

150 Piece Rotary Tool Accessory Set



•All the tip accessories you will ever need, for use with most rotary tools •Cuts, grinds, sands, drills, sharpens and polishes •Tips for metal, wood, ceramic, glass and plastic •Can be used for fine detail work including carving, engraving and routing •Includes 2.25mm (3/32") and 3mm (1/8") shanks •Packaged in tilt-out organizer case

MCM Part #	ONLY
22-9900	$14.99

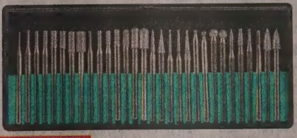


DURATOOL

208 Piece Rotary Accessory Kit

•Everything you ever need for use with multi-tools for cutting, grinding, sanding, sharpening, polishing etc. •Works on metal, wood, ceramic, glass and plastic **Features:** •Will work with most rotary tools **Includes:** •(20) sanding bands •Cloth wheel •(5) Felt wheels •Rubber emery wheel •Felt wheel point •(3) Polished HSS twist drills: 3.2, 2.4, 1.6mm •(2) Sanding shanks •(4) Diamond cutters •(3) HSS cutters •(6) Aluminum oxide grinding wheels with shank •(6) Aluminum oxide grinding wheels •(4) Silicon carbide grinding wheels with shank •(6) Silicon carbide grinding wheels •(3) Nylon brushes •(3) Stainless steel brushes •(3) Brass brushes •Polishing compound •(76) Cut off wheels •(44) Sanding discs •(4) Chrome plated collect: 3.2, 2, 2.4, 1.6mm •(4) Mandrel •(5) Fibre glass cut off wheels •Dressing stone SI carbide 25.4 x 9.5mm •1x 9.5mm Wrench •Flap wheel: 32 x 9.5mm

MCM Part #	ONLY
22-16246	$17.99



DURATOOL 30pc Diamond Bur Set

•Can be used on ceramics, tiles, brick, glass, plastics, fiberglass, steel, wood, and more Great for craft, modeling and repair work •Mfr. #D00150

MCM Part #	ONLY
22-11122	$3.99

Milwaukee

M12™ Cordless Lithium-Ion Rotary Tool

•The M12™ cordless lithium-ion rotary tool uses a powerful 12V motor and Milwaukee's REDLITHIUM™ battery to produce a high performance tool with long run-times •Ideal tool for maintenance workers, contractors, electricians, plumbers and more for work on a wide variety of cutting, grinding, sanding and polishing applications •1/8" Collet that is compatible with all current rotary tool accessories •Variable speed for a wide range of applications •Compact and lightweight •Grinder style exhaust ports and protected front bearing for longer tool life •On-board fuel gauge •Speed: 5,000~32,000RPM **Includes:** •2460-20 M12™ cordless rotary tool •One M12™ REDLITHIUM™ battery •Five cutting wheels, mandrel •Wrench •30-Minute charger •Mfr. #2460-21

MCM Part #	ONLY
22-14775	$99.99

Pro'sKit®

Cordless Lithium Ion Rotary Tool

•Cordless rotary tool can be used for light drilling, grinding, cutting, polishing, and many other applications •LED light provides lighting in dark areas •Lightweight ergonomically designed tool offers low vibration and high torque •Adjustable speed settings •Quick release chuck •Battery power indicator **Specifications:** •No load speed: 5000rpm~18000rp •Charging time: 3~5 hours •Free running time: 60 minutes **Includes:** •7.2V, 1000mAH, rechargeable L battery •Two brass collets •Three high speed drills engraving bits •Two diamond bits •Two nylon brus •Four grinding stones •Sanding band

MCM Part #
22-11625

Precision Power Tools

DREMEL

SM20-02 Saw-Max™ Tool Kit

•The Saw-Max™ is powerful enough to cut throug almost any material yet simple enough to control one hand •Compact size and ergonomic design m it easy to handle, control and store •Powerful 6 a motor provides 17,000 rpm •Versatile Cutting Sy for cutting wood, plastic, metal, tile, masonry an more •Worm Drive™ gearing for durability and p •Excellent line of sight for precise, confident cuts •Depth guide for precise plunge cuts •Lock-on bu for comfort during extended use •On board dust extraction port to maintain a clean workplace **Includes:** •Dremel Saw-Max SM20 tool •2x4 Cutt guide •Dust port adapter •Multi-purpose carbide wheel •Metal cut-off wheel •Tile diamond wheel •Multi-purpose flush cut carbide wheel •Storage case •Owners manual •Mfr. #SM20-02

22-10585	$16.09

LABORSAVINGDEVICES INC

MegaBore™ Drill Bits

MegaBore™ Drill Bits are designed for the installer who is pulling cable bundles or structured wire. These tools offer superior drilling capabilities and performance compared to large-pdiameter auger-type drill bits. These wood boring bits utilize a self-feeding pilot screw that holds the bit firmly in place to avoid "walking" and helps draw the bit through the wood. The MegaBore bits have multiple spurs that increase the cutting performance of the bladed edge. **Features:** •Multiple bit head sizes: 1¼", 1½", and 1¾" •Replaceable feed screw •Fully reversible •Special design makes drilling fast and free of splinters •Can be used with Labor Saving Devices' Flexible Extension Shafts to create long shaft lengths

MCM Part #	Description	ONLY
22-9266	1¼" MegaBore bit	$40.49
22-9270	1¾" MegaBore bit	60.99

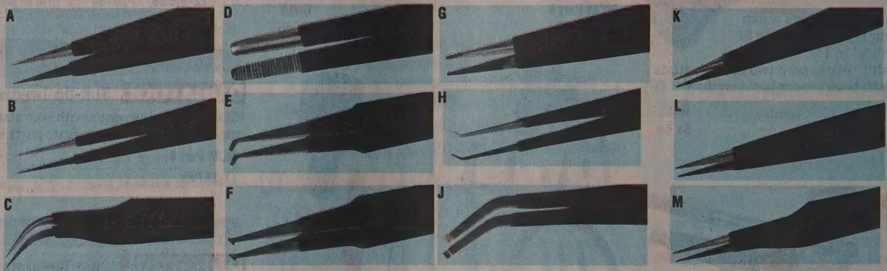
ESD Safe Tweezers Kit

•Non-metallic
•Acid resistant
•Heat resistant
•ESD safe **Four piece set Includes:** •Fine pointed t for microscopic parts, small round-headed tips fo small chip capacitors, large round headed tips for larger capacitors, and sharp, fine bent tips for inserting and retrieving miniature parts

MCM Part #	(set)	(2 set
22-6490	$6.49	$5.



Wiha Professional Quality Precision Tweezers

Wiha's "Electronic Tech Series" of precision tweezers offer many benefits to the user. These high quality professional tweezers are ideal for precision electronic work. **Features include:** •Textured grip surface •Hypo-allergenic, anti-glare •Anti-magnetic stainless steel •Acid resistant Anti-static ESD safe •Made in Germany •Many different styles to choose from

Fig.	MCM Part #	Description	Style	Length

KLEIN TOOLS Journeyman™ Hand Tools

for Professionals... since 1857™

Klein's Journeyman™ line of hand tools sets a new standard for comfort and durability. The Journeyman line consists of six side-cutting pliers, four diagonal-cutting pliers, two long-nose pliers, and one cable cutter. Each tool features state-of-the-art handles made using a dual material molding process that allows for a softer, more comfortable grip on the outer surface and a harder, more durable grip on the inner surface and handle ends. See and feel the difference of a Klein Journeyman and you will know why "professionals are known by the tools they own™".

•One-step stripping enhances productivity •Spring-action motion increases leverage and reduces operator fatigue •Precision-ground, knife type blades provide clean, accurate stripping •Sturdy die-cast frame provides long term durability •Wire gripper holds wire securely in position •Stripmaster® Lite designed for smaller hands ¾ size of the standard Stripmaster®

MCM Part #	Description	ONLY
22-3045	Stripmaster® strips wire 10~22AWG	$37.99
22-3046	Stripmaster® Lite strips wire 16~22AWG	47.99
22-7436	Stripmaster® for RG-6 quad-shielded coaxial cable	43.99
22-7437	Stripmaster® for RG-58 coaxial cable	38.49
22-7438	Stripmaster® for RG-59 coaxial cable	41.99

IDEAL® Reflex™ T®-Stripper

The Ideal Reflex™ T®-Stripper with ergonomic handles is the next evolution in total-comfort, total-control wire strippers. Designed to fit an electrician's natural grip, the complete line of Reflex™ T®-Stripper wire strippers provides clean, accurate stripping while reducing repetitive motion fatigue. **The Reflex™ T®-Strippers feature:** •Ergonomic design fits natural grip for maximum comfort •Sure, easy grip •Multi-purpose plier nose •Convenient looping holes •Easy-to-read laser wire-guage markings •Tab lock to keep spring in place •Black oxide finish resists corrosion

MCM Part #	Mfr. #	Wire Range	ONLY
22-5340	45-415	10~18AWG solid, 12~20AWG stranded	$17.49
22-5345	45-417	22~30AWG solid, 24~32AWG stranded	18.99
22-5350	45-418	6~14AWG solid, 8~16AWG stranded	15.99
22-5355	45-416	14~24AWG solid, 16~26AWG stranded	17.49

IDEAL® Kinetic Super™ Wire Stripper

•Easily cuts and strips stranded or solid wire with better control •Ergonomic design cradles your hand and reduces muscle fatigue •Thumb-Valley™ thumb guide promotes comfort while focusing kinetic energy for faster wire stripping •Pocket-Locket™ locks even tighter when tool is slipped into holster or pants pocket for added safety •Shear-Cut™ bolt cutters slice through bolts easier and cleaner

MCM Part #	Description	(1-4)	(5-9)	(10-up)
22-7790	10~18AWG solid	$27.49	$25.64	$25.13

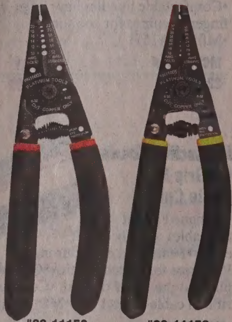
PLATINUM TOOLS ProStrip Wire Strippers



#22-11150 #22-11152

•Cut and chase threads on $^{16}/_{32}$ and $^{8}/_{32}$ bolts •Precision-ground strip nest •Curved blade for easier, cleaner cuts •Holes in jaw for looping wire with sizes marked on both sides of blade to fit left or right handed users •Serrated plier nose •Black oxide finish •Geometrically designed handles require less hand-force to cut

MCM Part #	Mfr. #	Rated	ONLY
22-11150	15003	10~20 AWG	$12.99
22-11152	15005	16~30 AWG	13.99

PLATINUM TOOLS V-Notch Wire Stripper

•Designed with a precision ground "V" notch blade for superior stripping results on various types of wire jacket insulations •Spring loaded with locking latch •Looping holes for solid wire •Adjustable blade easily strips and cuts 10-24 AWG wire •Black oxide coating •High carbon steel •Vinyl cushion grips provide excellent comfort •Mfr. #15001

MCM Part #	ONLY
22-11140	$7.49

PLATINUM TOOLS Cut-N-Strip

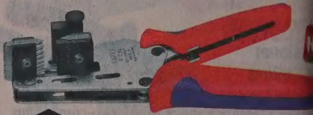
•Self-adjusting stripping jaws, no stripping holes to locate •Full-flush cutting jaws •For use with 26AWG~14AWG wire •Induction harde
stainless steel for long life

MCM Part #
22-9195

KNIPEX 7AWG Wire Strippers

•Useful for stripping single, multiple and fine stra
conductors with plastic or rubber insulation with
max diameter of 5mm •Easily adjusts to the requ
diameter with knurled screw and lock nut •Two-c
dual component handles •Made of tempered, oil-
hardened tool steel •Length: 160mm

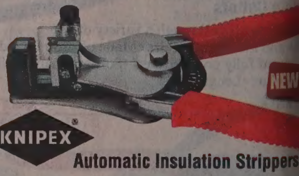
MCM Part #
22-17590



KNIPEX Universal Insulation Stripp

•Easily strips difficult insulating materials such as
Teflon®, silicone, Radox®, Kapton® and rubber, as
as multilayer insulation •Positive stripping is due
precise shape of blades •Lightweight construction
smooth operating mechanism for repetitive work
color dual component handles •Includes cable gu
•Stripping capabilities: 32~14AWG •Length: 195m

MCM Part #
22-17595



KNIPEX Automatic Insulation Strippers

•Precision ground blade shapes leave wire undama
even multi-stranded conductors are stripped gentl
•Blades can handle four or six conductor cross sections •Clamp jaws hold wire in place while stri
•Length stop for constant stripping length •Made of oil-hardened tool steel •Stripping capabilities: 20~19/17/15/13/11/10AWG •Length: 180mm

MCM Part #

DURATOOL

Wire Stripper/Cutter

•Professional style stripper strips 10~22AWG stranded wire without damaging wire •Sharp ¼" blade cuts wire to length •Ergonomic handle for a comfortable grip •Spring loaded for easy opening •Locking mechanism for safety •Hole for looping wire ends •Length: 7"

MCM Part #	ONLY
22-13555	$6.49

DURATOOL

3-in-1 Wire Stripper with Cutter

•For 10~22AWG copper and aluminum wire •Three tools in one-wire stripper, cutter, and pliers •Red cushion grip handle provides maximum leverage •Length: 6¼"

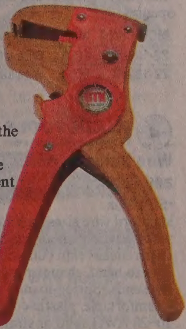
MCM Part #	(ea.)	(2-up)
22-8850	$3.99	$3.79

DURATOOL

Professional Wire Strippers

•Strips, cuts and clamps stranded wire accurately and easily all in one tool saving time and space at the jobsite •Wire gauge is marked on blade with mm conversion for ease of use •Blade lock for user safety •TPR handle for comfort •Three models available to strip 10~26 AWG wire •Length: 6"

MCM Part #	Description	ONLY
22-16292	10~22AWG stripper	$5.99
22-16294	16~26AWG stripper	5.99
22-16296	22~30AWG stripper	5.99

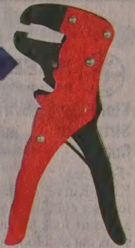


DURATOOL

Automatic 2-in-1 Wire Stripper and Cutter

•2-in-1 wire stripper and cutter use a self-adjusting mechanism to strip wires without causing damage to the conductor •Adjustable stop provides consistency on wire strip lengths and a adjustment dial allows for correct blade pressure depending on thickness of insulation •For use on wire .5mm~6mm •Works on wire 10~24AWG •Strips flat cable up to 8mm •Length:7"

MCM Part #	ONLY
22-16283	$6.99



DURATOOL RATED

Automatic Wire Stripper

•For all types of wire from 0.2~6mm •Strips lengths up to 25mm •Self adjusting stripping mechanism •Cable cutter built into jaws

MCM Part #	ONLY
22-10020	$3.19

DURATOOL

5-in-1 Automatic Wire Stripper

•5-in-1 tools designed for easy wire stripping and cutting •Steel jaws automatically adjust to strip wire from 10~26AWG •Built-in wire cutter •Crimps insulated and non-insulated terminals 10~22AWG •Ergonomic grip for comfort •Length: 8.5"

MCM Part #	ONLY
22-16126	$12.99

DURATOOL

Professional Wire Stripper

•Capable of stripping wires up to 5mm in diameter •Made of drop forged, heat treated, fully polished steel **Features:** •Adjustable screw and release spring •Two-component handle with slip guard •Shock proof handle •Length: 6⅓" •Made in Germany

MCM Part #	ONLY
22-14420	$16.99

DURATOOL

All-in-One Screwdriver and Bit Set with Wire Stripper

•Handy screwdriver handle comes with five interchangeable bits to handle most jobsite applications •Integrated wire stripper works for 10~20AWG wire for added convenience

MCM Part #	ONLY
22-16364	$14.99

Flex and Wire Cutter and Stripper

•A simple and safe rotary action cut and strip tool for preparing various cable types with an outside diameter of up to 11mm •Self adjusting cable stripper removes outer and inner insulation from PVC cables without damaging conductors •Clean and precise finish •Convenient cutter for wires up to 2.5mm •No exposed cutting blades •Instructions are included

MCM Part #	ONLY
22-16134	$13.99

KLEIN TOOLS for Professionals... since 1857™ NEW!

Klein-Kurve® Wire Strippers/ Cutters

•Features Klein-Kurve® double dipped grips for user comfort, coil springs for fast self-opening and a closure lock for easy storage •Multi-purpose tools strip, cut and loop a variety of wire type and sizes •Precision ground stripping holes •Stong gripping serrated nose for bending, shaping and pulling wire •Cleanly shears 6-32 and 8-32 screws •Easy to read marking •Length: 7⅛"

MCM Part #	Mfr. #	Wire type	ONLY
22-18265	11053	6~12AWG stranded	$9.99
22-18270	11054	8~16AWG solid/ 10~18AWG stranded	19.99

Pro'sKit®

Automatic Wire Stripping Tool

•2-in-1 wire stripper and cutter •For wire 0.2mm~8mm •Self-adjusting mechanism provides a clean strip without damaging the conductor •Handy separate cutting jaws work with a simple squeeze •Adjustable stop for consistency in wire strip lengths •Strips multiconductor flat wire up to a ½" wide •Adjustment dial for blade pressure to match varying hardness and thickness of insulators •Size and operation make it great for use with gloves •Not for use with Teflon® or asbestos insulation

MCM Part #	(1-2)	(3-up)
22-9482	$12.99	$11.21

TITAN™

Automatic Wire Stripper

•Self adjusting tool cuts and strips solid or stranded 12~22AWG wire •Easy to use as it automatically adjusts to correct wire size •Provides clean, nick free results •Works with single or multiple conductor wire •Not designed to strip teflon or similar insulations

MCM Part #	ONLY
22-15180	$13.49

TITAN™

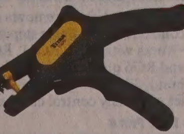
8" Wire Stripper and Cutter

•This versatile tool easily strips and cuts solid (8~20AWG) and stranded (8~22AWG) wire •Also crimps insulated and non-insulated terminals along with 7~9mm ignition terminals •Narrow, serrated plier nose can pull, loop and bend wire

MCM Part #	ONLY
22-15195	$12.99

TITAN™

Pistol Grip Wire Stripper



•Comfortable pistol grip makes for fast, accurate and easy wire stripping •Strips 10~24AWG single strand or multiple strand wire •Adjustable hardened steel blades •Locking handle •Integrated wire cutter •Removable depth gauge to reach 20mm of depth

MCM Part #	ONLY
22-15200	$15.99

Wiha®

ProTurn ESD Safe Wire Stripper

•30 to 20 AWG strippers •Static dissipative ESD safe (Resistance 106~109 Ohms) •Stamped from C70 tool steel •Through hardened durability •Guaranteed ProTurn quality made for Wiha

MCM Part #	ONLY
45810	$18.17

velleman

Jokari Automatic Wire Stripper

•This automatic wire stripper is used for all flexible and solid cables with diameters of 0.5~4.0mm •Has a scanning system which avoids any damage to the conductor so it's not necessary to adjust diameter •Integrated side cutter for wires of up to 5/64" and an optical linear measure of 5/16" ~ 26/32" •Made of fiberglass-reinforced polyamide •Length: 7 9/32"

MCM Part #	ONLY
22-11725	$26.99

Xcelite®

Self-Adjusting Combination Wire Stripper

This self-adjusting stripping and cutting tool is ideal for a wide variety of insulated wires and cables including PVC insulations, power wire, equipment wire, and communication cables. **Features:** •Strips wires from 34~8AWG without adjustment, the widest stripping range of any tool of its type •Easily interchangeable stripping blade cassette enables precision stripping of a wide range of insulation types from PVC to PTFE with just one tool •Ergonomic design guarantees comfortable, stress-free operation •Fine adjustment ensures that thin insulations can be stripped without damage to conductors •Tested to over 150,000 cycles Replacement blade is available (#96-1960).

MCM Part #	Description	ONLY
96-1955	Self-adjusting combination wire stripper	$76.95
96-1960	Replacement straight blade	22.90

Cable Strippers

Dedicated Coaxial Cable Strippers

•Simple and efficient tools specified by end users worldwide •They require no adjustments as each tool is dedicated to a specific cable •The tool is factory set to an accuracy of ±0.01mm and is supplied ready to use •Controlled cutting depth and a long life, carbon steel blade provide a precise two or three level stripping of dielectric braid and sheath •A floating blade carrier design compensates for variations in cable manufacture and prevents damage to the conductors •Unique measuring gauge for stripping length which gives a suitable presentation for any connector

MCM Part #	Description	ONLY
22-16138	RG58 cable stripper	$22.99
22-16140	RG59 cable stripper	22.99

DURATOOL

Rotary Coaxial Cable Stripper

•Suitable for stripping RG6, RG58, RG59 cables as well as cables with diameters between 4~10mm •Easily strips cable with just a few rotations around cable •Quick blade adjustment for different sized cables

MCM Part #	ONLY
22-13920	$4.99

PLATINUM TOOLS

BR1 Multi-Stripper

•The "Big Red" is an easy to use professional cable and wire stripper/cutter for most cable types and sizes •Coax cassette blades are pre-set •Adjustable stripper for twisted pair and audio cables •Cutters for both cable and wire conductors •Includes braid comb, Velcro, for folding the braid back over the cable jacket

MCM Part #	Mfr. #	Description	ONLY
22-16436	15041C	BR1 multi-stripper	$11.99
22-16438	15041BLC	Replacement blade cassette	2.59
22-16440	15042C	Blade set (2 pieces)	4.99

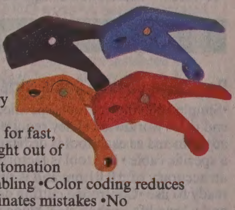
PLATINUM TOOLS

ProStrip 25R Cable Stripper

•Rugged two-level coaxial cable stripper is designed for professional use •RG-6 and RG-59 cable stripping ports •RGB/mini 59 cable stripping port for 23, 24, 25 AWG center conductor cables •Industry standard ¼" (6mm) strip length •Quick change blade cartridges are factory pre-set so there is no need for adjusting •Stainless steel blades

MCM Part #	Mfr. #	Description	ONLY
22-11160	15028	ProStrip coax strippers	$24.99
22-11162	15029	Replacement cartridge	5.99

PLATINUM TOOLS



SealSmart Coax Cable Strippers

•Pre-set at the factory for a specific coax cable size and length for fast, accurate stripping right out of the box •Ideal for automation wiring and CATV cabling •Color coding reduces set up time and eliminates mistakes •No adjustment required •Two level strip

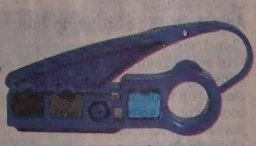
DURATOOL

Drop Trimmer Cable Stripper

•A single tool that cuts, strips, and trims coax cable •Single-step coax stripper with built-in stop for perfect lead length •Fixed-blade cartridge for 18 and 24AWG center conductors (RG-58/59/6) •Dial-adjusted cable jacket slitter for multi-coax cables •Impact resistant polymer and ergonomic design

MCM Part #	(1-5)	(6-11)	(12-up)
22-10055	$12.99	$11.49	$10.67



Coax and UTP Wire Stripper

•Versatile, easy to use wire stripper strips RG-59, RG-6, RG-6 Quad, RG-7, RG-59 and UTP cables making it ideal for any installer •Features dual cartridges for multi cable stripping and the tool body has molded storage for an additional cartridge •Connector holder allows user to insert cable into connector easily •Blades are pre-set to industry standards

MCM Part #	Description	ONLY
22-14550	Wire strippers	$7.99
22-14552	Replacement cartridge 3 pack	2.99

Cyclops Data Cable Stripper

MAX CUT MIN
CYCLOPS

•The "Cyclops" facilitates the safe and accurate stripping of twisted pair (UTP and STP) and multicore (screened and unscreened) voice, data, audio and security cables up to 11mm in diameter •Having no open blades or manual adjustments it is easy to use and severs PVC or Low Smoke (plenum) insulation without damage to braid, foil or conductors •Also suitable for fibre optic cables

MCM Part #	ONLY
22-16136	$15.99

PLATINUM TOOLS

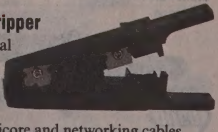
Double-Ended Coaxial Stripper

Quickly and easily removes cable jacket and inner conductors in a single step without any adjustments •Works with RG7, RG11, RG213, RG8, RG59, RG6 and RG6 quad cables •Designed to provide a ¼" braid, 2-level strip •Number of rotations around cable let you easily control cutting depth •Mfr. #15020C

MCM Part #	ONLY
22-13750	$8.39

DURATOOL

Universal Cable Stripper



•Flat wire Stripper ideal for telephone cords, intercom and speaker cables •Round cable stripper ideal for flexible cable, multicore and networking cables •Manufactured from durable shock proof plastic •Suitable for heavy duty cables •Suitable for cables with a diameter between 3mm and 9mm

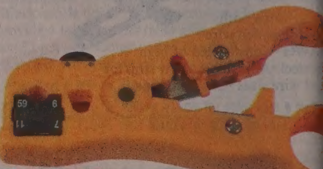
MCM Part #	ONLY
22-16128	$2.99

DURATOOL

Double Ended Coaxial Cable Stripper

•Universal coaxial cable stripping tool strips roun cable, stranded wire, multi-conductor cable and o cables from 22AWG up to ⅜" diameter •Double s with a blade for RG59/6 and RG7/11 cable •Pock clip for easy transport •Length: 5¾"

MCM Part #
22-16289



DURATOOL

Universal Cable Stripper and Cutter

•Versatile stripping and cutting tool can be used RG59/6, RG7/11 coaxial cables, round networkin cables and flat telephone cables •Strips outer jack of UTP, STP and CAT5 cables •Changeable four cassette for coaxial cables •Works with flat cable 4P/6P type cable •Built-in cable cutter •Length: 5

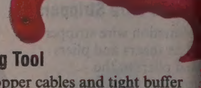
MCM Part #
22-16287

DURATOOL

Self Adjusting Cable Slitter/Stripper

•Versatile tool can be used for slitting or stripping insulation from various cable types •Easily adjusts to strip cables up to 1" in outer diameter and slit cable jackets up to 3/16" •V-shaped cable holding bracket •Length: 6"

MCM Part #	ONLY
22-16290	$10.99



JONARD
INDUSTRIES CORP.

Cable Sheath Stripper and Ring Tool

•Ideal for use on copper cables and tight buffer optical fiber cables •Used for butting and strippin cables too large for hand held pliers •One blade used to butt sheathing and second blade strips th sheathing •Adjustable for .018" or .031" thick pla rubber or fabric insulation •Includes a spare blad •Mfr. #JIC-4366

MCM Part #
22-11875

NARD
STRIES CORP.

Universal Cable Stripper

versatile tool can be used on coaxial cable, network cable and flat cables making it useful DTV, cable, satellite and networking applications rsible cassette switches between RG59/6 and axial cables •Second hole is adjustable to strip ent sized round cable •Third hole cuts all cable and the fourth hole works on flat cable and style cable •Mfr. #UST-500

for Professionals... since 1857™

ination l Coax er

NEW!

ned for ngle ion cable ations •Provides 2-level (5⁄16" and 1⁄4") coaxial ation •Sliding depth gauge for easy debris out and variable stripping •Cuts RG6, RG6-QS G59 cable •Blades are made of high-carbon Finger loop for rotation •Length: 4.6" •Mfr. 110-061

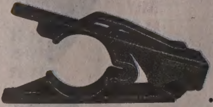
Part #	ONLY
20	$11.99

Pro'sKit®

Universal Stripping Tool

•Compact pocket size •Strips regular cable AWG 20~10(0.5~0.6mm) •Strips RG59 and RG6 coaxial cable •Strips low volt cable Ø8~13mm •OAL: 125mm •Mfr. #CP511-A

MCM Part #	ONLY
22-11040	$14.98



Xcelite®

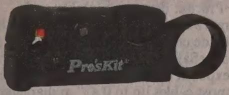
Coaxial Wire Stripper

•Tool specifically designed to quickly and easily strip RG-59 and RG-6 cables for CATV "F" connectors •Built-in stop (no adjustments needed) •Replaceable blade cassette lasts 1,000~2,000 strips •Convenient built-in belt clip

MCM Part #	ONLY
96-1520	$10.99

RATED

Coaxial Cable Stripper

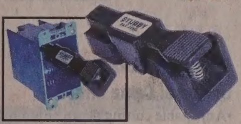


•Quickly and easily strips RG-58, RG-59, RG-6, and RG-62 coaxial cable •Adjustable blades make perfect three-level strips in dual and quad shield cable •Length: 4.5"

MCM Part #	ONLY
22-9110	$13.50

SARGENT

Stubby™ Coax Stripper



This effective cable stripper allows you to get into tight places where other tools won't fit. Stubby™ eliminates the need to run new cable when the short stub-in is just out of reach for conventional strip tools. This tool is rotated in a natural screwdriver-type motion and will not nick the braid or score the center conductor. Works with RG-59 and RG-6 cabling.

MCM Part #	ONLY
22-9590	$21.99

Paladin Tools

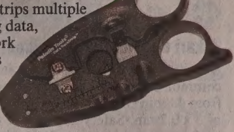
Combo UTP/Coax SureStrip® Cutter/Stripper

•Professional all-in-one cutter and stripper for both twisted pair and coaxial cables •Cuts UTP/STP and coaxial cables •Strips Cat6, Cat5e, Cat5 •Strips RG6, RG6 Quad and RG59 coaxial cables for 2-level cable TV "F" connectors •Adjustable stripping blade for UTP/STP cable accommodates different insulation thicknesses without damaging conductors •Self-regulating cassette blade prevents nicks •Coax blade cassette is removable to adjust stripping depth of both blades with hex key included •Contoured finger grips for cutting power •Lanyard hole for wrist strap, key chain, etc. •Mfr. #PA1119

MCM Part #	ONLY
22-13694	$31.99

Paladin Tools

Data SureStrip™ Multipurpose Cutter/Stripper



•This tool cuts and strips multiple cable types including data, telephone and network to make installations quick and easy •Works with CAT3, CAT5, CAT5E and CAT6 shielded and non-shielded cables •Easily adjusts with simple thumb screw •Self-regulating to prevent nicks •Contoured finger grips for power cutting •Nylon reinforced ABS plastic with stainless steel blade •Mfr. #PA1116

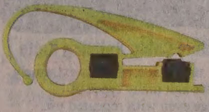
MCM Part #	ONLY
22-13692	$21.99

SARGENT

Multi-Tasker™ Wire Stripper

The Multi-Tasker™ eliminates the need to interchange strip cartridges for dual cable applications. •Molded in the stripper body are nests for RG-6/RG-59 and RG-11/RG-7 drop connectors to assist in cable insertion that control the center conductor foam core depth •Includes additional die storage compartment for further versatility

MCM Part #	Description	ONLY
22-9592	For RG-6, RG-59, RG-11, RG-7	$27.49
Replacement cartridges		
22-9595	RG-6, RG-59	6.69
22-9596	RG-11, RG-7	6.75
22-9597	UTP (twisted pair)	5.99



SARGENT

RG-59/6 and RG-7/11 Coax Cable Stripper

•Quick and easy stripping of coax cable for satellite and CATV •Strips insulation, shielding, and dielectric in one easy step •Strips RG-59/6 and RG-7/11 •Mfr. #8720 ES

MCM Part #	ONLY
22-3157	$22.99

velleman

Jokari Cable and Wire Stripper

•This easy to use cable and wire stripper can be used on all types of common wire •Ideal for use at home, the shop, or at the worksite •Strips wire and cable from 5⁄16"~17⁄64" •Includes a screw to adjust cutting depth •Spare inner knife for quick blade change •Length: 611⁄16"

MCM Part #	ONLY
22-11715	$15.99

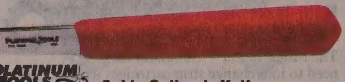
velleman

Jokari Coaxial Cable Stripper

•Ideal for fast and precise stripping of all common coaxial cables such as antenna cable from 4.8mm~7.5mm, RG 58/59 and PVC round cables of 3 x 0.7mm •Safety and ease of use make this tool perfect for everyday use •Stripping process is done in two separate steps by different blades on both ends of the tool •One blade cuts outer sheath while the other adjusts itself to correct cutting depth

MCM Part #	ONLY
22-11720	$19.99

Cable Knives



PLATINUM TOOLS

Cable Splicer's Knife

•6" nickel plated cable splicer's knife with a comfortable, non-slip grip and weighted handle •Ideal for telecommunications, data and security applications •Made of through hardened, high carbon steel

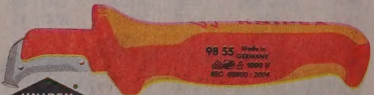
MCM Part #	Mfr. #	Description	ONLY
22-16424	10520C	Cable splicer knife	$13.39
22-16426	10519C	Cable splicer knife with leather pouch	22.99
22-16428	10521C	Leather pouch	9.99

JONARD INDUSTRIES CORP.

Ergonomic Cable Splicing Knife

•This knife has a tough steel blade which is extremely sharp so it cuts easily through many types of insulation •Holds its edge even with repeated use •Ergonomic handle made from TPR (thermoplastic rubber) and a non-slip grip provides less hand fatigue and better control •Length: 6¼" •Mfr. #KN-7

MCM Part #	ONLY
22-11870	$7.49



KNIPEX

VDE Dismantling Knife

NEW!

•Insulated dismantling knife has been tested and rated for safe working up to 1000V •Features a solid, fixed hook blade, sickle shaped with guide shoe at the blade point •Will not damage conductor insulation •Blade is made of air-hardened surgical stainless steel •Ergonomic handle with slip guard for comfort and safety •Thumb recess at the end of handle for good transmission of force •Transparent protective cap •Multi-component handle for comfort grip •Length: 6"

MCM Part #	ONLY
22-20370	$47.49

Jacket Strippers

DURATOOL

Cable Slitter

•Easy to use cable slitter is useful on drop cable, coaxial cable, speaker wire and many other round cable types •Simply insert cable to desired length, pull back and out comes a perfectly slit cable

MCM Part #	ONLY
22-16285	$9.99

Xcelite

Cable Jacket Stripper

This precision stripping tool is ideal for removing the jacket from telephone, data, signal, audio, and instrumentation copper and fiber optic cables. **Features:** •Precise: Fine adjustability and repeatability assured by nine position blade cutting depth adjustment •Easy to use •Safe smooth lightweight design; no exposed blades •Strips the jacket from most cables up to 0.43" in diameter •Durable: Tested to over 50,000 cycles •Replacement blade is available (#96-1950).

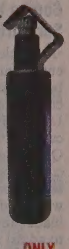
MCM Part #	Description	ONLY
96-1945	Cable jacket stripper	$27.99
96-1950	Replacement blade	7.99

Paladin Tools

Universal Cable Slitter

•Adjustable cutting depth •Eliminates need for two tools; works with cable .18"~1.4" (4.5~35mm) •Cable supported during use •Cable support arm can be used to pry off thick insulation •Laser-trimmed, stainless steel blades •Great tool for mid-point taps

MCM Part #	ONLY
22-9378	$29.99



JONARD INDUSTRIES CORP.

Round Cable Stripper

•Designed for fast precise jacket removal of PVC, rubber, PE and other jacket materials •Works on round cables with diameters of ³⁄₁₆"~1⅛" •Cuts longitudinal for end stripping, spiral for end stripping and mid-span cuts, and circular for jacket removal •Replaceable cutting blade is spring-loaded, adjustable for various diameters and provides a 90° blade rotation

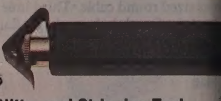
MCM Part #	Mfr. #	Description	ONLY
22-11825	CST-1900	Round cable strippers	$49.99
22-11830	CST-7915	Replacement cutting blade	12.99

PLATINUM TOOLS

Cyclops Wire Jacket Stripper

•Perfect for: Data, voice, video, audio, security and more •Takes the guesswork out of removing the ca jackets from many types of twisted pair, multicore fiber optic cables •Self-adjusts to automatically cut PVC, plenum and others without damaging the br foils or conductors •Accepts cable diameters to .43 (1mm) •Mfr. #15010

MCM Part #	O
22-11155	$2



PLATINUM TOOLS

Cable Jacket Slitter and Stripping Tool

•Used for quick and precise removal of insulation round cables without nicks •Design allows ringing longitudinal and spiral slitting •Integrated sharpen edge removes insulation •Blade adjusts for a jacket thickness of 0.125" •Can be used with single condu stranded and solid conductor cable Includes •Spar blade stored in handle

MCM Part #	ON
22-11310	$24.

Solderless Terminal Crimpers

Performance Tool

151 Piece Ratcheting Crimp

•Handy ratcheting crimp set is designed for crimping wires and cables from 10-22AWG •Provi a professional and secure connection •Adjustable crimping compression mechanism •Color-coded h for easy identification •Includes a 150 piece assort of 10-22AWG connectors •Mfr. #W185

MCM Part #
22-17900

NEW!

KNIPEX

Crimp Pliers for End Sleeve Connectors

•Used for crimping end sleeves (ferrules) from 0.25~16mm •Provides crimping in marked half-rou dies for reliable connections between the sleeve an the conductor •Nine particularly deep dies with conical side faces •Made of forged, oil-hardened tool steel •Nine crimp positions •Length: 180mm

MCM Part #
22-17650

ATOOL Ratchet Crimping Tool

ful ratchet type crimping tool is ideal for
ng insulated terminals •Made from hardened
ith cushioned plastic grips •Adjustable
ng pressure and ratchet release lever
bing capacity: AWG: 22~18/16~14/2-10, DIN:
/1.5~2.5/4~6mm

MADE IN USA

PLATINUM TOOLS

RJ45 Category 4/6 Connector System

Platinum Tools patented connectors simplify RJ- 2, Cat 5 and Cat 6 terminations by allowing wire extend beyond the front of the connector. This s you to easily verify proper wire order before ng the excess. By seating the cable jacket tightly e front of the connector, mechanical reliability is oved. This also maintains the maximum number ire twists, which is the key to having optimal rical performance. Platinum Tools makes it easy to ne job done right. Simply select the solution that's for you.

ures: •Simple one piece design •No bars or liners nted crimp tool works for RJ-45 and RJ-11/12 ectors •Use in Cat 3, 5e and 6 networks and patch s •FCC compliant •50 micro inch gold plate •UL •Made in the USA

Tele-Titan™

The "Little Giant" of Modular Crimp Tools

Compact & Rugged. Nests comfortably in your hand or in your pocket.

- *Crimps with minimal hand force*
- *Lightweight and half the size of standard crimps tools*
- *Crimps RJ45, RJ12, RJ11 standard style modular plugs*
- *Built-in cable cutter and strippers for round & flat cables*

p/n 22-16390

PLATINUM TOOLS

CCS-6 Cable Cutter

The optimal cutting solution for today's Voice, Data, Video & security installers.

Finally, a compact cable designed to cut coax cable with steel center conductor! Easily cuts through copper and aluminum cable too. Cut copper cable with steel content without nicking, degrading or deforming the cutting blades! ***p/n 22-16418***

PLATINUM TOOLS

VDV MapMaster 2.0™

Combines continuity testing, mapping, tone generator and now length measurement into one powerful tester.

Commercial or residential, the versatility and added features of the VDV MapMaster 2.0™ makes it an installer's best friend! ***p/n 22-16416***

VDV MapMaster 2.0

PLATINUM® TOOLS

We Make Connections EZ!

Since 1997, we have provided the finest wire and cable installation tools, connectors and testers. Including cutters, strippers, crimpers, EZ RJ45® CAT5&6 & coax connectors, VDV tools and accessories. Today, we are th first choice for low-voltage network installers that cut, strip, terminate and test worldwide.

Connector Drivers and Wrenches

DURATOOL

“F” Connector Removal/Insertion Tool

•Used to make removing and installing “F” connectors quick and easy even in hard to reach places •Dual purpose tool has a 7/16" hex socket at one end for removing connectors and the handle has a threaded end for inserting connectors •Overall length of tool is 13" •Socket extends 8" from handle

MCM Part #	ONLY
22-13545	$6.99

DURATOOL

3-In-1 Coaxial Connector Tool

•Add convenience to your tool box with this versatile installation tool •Tri-wing design allows for flaring the braid of RG59 and RG6 cables and “F” connector installation •Each side is labeled for easy identification •Made of durable plastic with nickel-plated connectors •Length: 3.93"

MCM Part #	ONLY
22-16300	$4.99

KLEIN TOOLS for Professionals... since 1857™

NEW!

F-Connector Insert/Extraction Tool

•3/8" threaded-end holds standard F-Connectors for cable insertion •5" long shaft with 7/16" socket extends reach for connecting and removing F-connectors •Cushion-Grip handle allows for more torque and user comfort •Constructed of precision machined high-carbon steel •Durable chrome finish resists corrosion •Overall length: 8.8" •Mfr. #VDV312-012

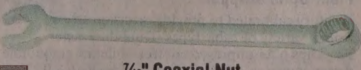
MCM Part #	ONLY
22-18070	$9.99

Paladin Tools

Three Sided “F” Connector Flaring Tools

•This tool flares the shield braid back on RG6, RG6 Quad and RG59 cables to make attaching cable to a "F" connector quicker, better and easier •Using this tool saves your finger from nicks and scratches •Mfr. #PA1927

MCM Part #	ONLY
22-13690	$11.59



TITAN

7/16" Coaxial Nut Combination Wrench

•Allows for rapid removal or installation of 7/16" hex fasteners •Ideal for use with “F” connectors •15° offset box end •Made of fully polished chrome vanadium steel

MCM Part #	ONLY
22-15235	$4.99

JONARD INDUSTRIES CORP.

F Connector Tool

•Designed to provide easy access to “F” connectors in crowded areas •The head measures 7/16" and is specifically used for “F” connectors •The socket extends 8" from the handle while the overall length of tool is 12" •Back of handle has an insertion tool to aid in making connections •Mfr. #RF-12

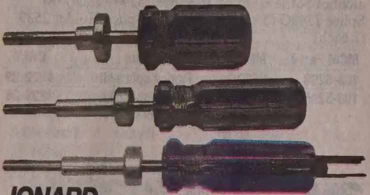
MCM Part #	ONLY
22-11790	$11.99

JONARD INDUSTRIES CORP.

BNC Connector Tool

•Designed to provide easy access to BNC connectors in crowded areas •The head is formed specifically for BNC connectors •The socket extends 8" from the handle while the overall length of tool is 12" •Mfr. #RBNC-12

MCM Part #	ONLY
22-11795	$11.99



JONARD INDUSTRIES CORP.

Terminating Tools

•Used with various locking terminators like the GTP (Morlock), PRC (Production Products Company, LFT, PCT (International Technology), TPG, TR 75 GTL (Viewsonics), and Signal Vision •Ergonomic handle for greater leverage •Available in three different sizes to suit your application

MCM Part #	Mfr. #	Description	ONLY
22-11810	TT-4	4½" terminator tool	$11.49

IDEAL®

Electrician's Scissors with Stripping Notches

Reliable, multi-purpose electrician's scissors are designed for use in telephone and electrical service applications. Scissors cut up to 16AWG solid and 12AWG stranded wire. Scissors operate smoothly and have a serrated surface on the black blade edge to clean wire. Cutting edges remain sharp after repeated use. Overall length: 5". Length of cut: 1⅞". Made in USA. Stripping notches strip 19 and 23AWG wire and have serrations for non-slip wire cutting.

MCM Part #	ONLY
22-6265	$15.99

Grabbit™ Telescoping Wire Pusher/Puller Pole

Lightweight, shockproof, sturdy self-locking telescoping fiberglass pole. Indispensable for running wires or cables indoors as well as outdoors, in residential or commercial installations. Anytime you can see the wire or cable and can't reach it, just Grabbit. The inner "V" of the patented Ztip has a double knife edge designed to literally grab the wire, while the outer "V" (without knife edge) is designed to push wires. The angles and edges are shaped to handle many wire and cables sizes and types. Extends to 12' long.

MCM Part #	Description	ONLY
22-2582	Grabbit	$89.99
22-2660	Replacement Ztip	16.99

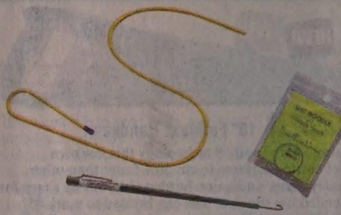
Luminous Fiberglass Push/Pull Rods

The push/pull rods have a bullet shape tip with cross hole (bullnose) on both ends. The luminous rods are made of phosphorous epoxy fiberglass truly glowing in the dark after being charged with light. The epoxy fiberglass makes them stronger than the regular green rods, therefore a little stiffer.

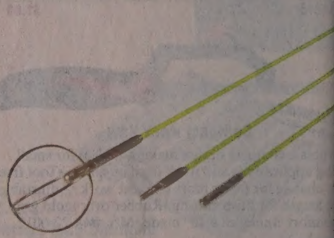
MCM Part #	Description	ONLY
22-2620	4' length	$17.99
22-2625	6' length	28.99



Wet-Noodle™ Self Guiding In-Wall Retrieval System

The Wet-Noodle retrieval system has been updated now contain three components: 24" flexible insulate retriever with an ultra strong earth magnet attached at one end; 10' of lightweight ball chain with o-ring; and an 18" telescoping pocket retriever. This system provides a fast and easy solution to connecting an i wall entry point to an exit point blindly (without vis tools) to pull wire. Because of its speed and efficienc the Wet Noodle and Retrievers is a must for every w and cable installers' toolbox.

MCM Part #	Description	ONL
22-2585	Wet Noodle and Retriever	$25.4
22-2590	Replacement Wet Noodle	8.49
22-2600	Hook-Zit (3 pack)	10.9



Creep-Zit Fiberglass Wire Running Kit

The Creep-Zit is "THE TOOL" that makes conventional fish tape obsolete and has a use in eve wire/cable install job, residential or commerical. Consists of five 6' (30' total) green fiberglass rods .1 dia. retaining their memory to straight, making it g where you want, not where it wants. Four of them h a male connector on one end and a female connect on the other so they can be screwed together. The fi one has a female connector on one end and a bullet shaped head with cross hole (bullnose) at the other The cross hole in the bullnose is designed to attach wire (or the ball chain included in the kit when fishi inside walls) to it. An eggbeater (wisp) shaped head with male connector (also part of the kit) is used as guide to keep the rods from getting stuck on obstac and to provide a "wheel" to "creep" from side to sid when turning the rod with your hand. The kit is sto in a convenient PVC heavy-duty carrying case. Rod connectors are not covered under warranty.

MCM Part #	Description	ONL

Wire Ties

lermannTyton Grip-Ties

structed of Velcro® hook and loop material,
-ties are a low profile, single piece fastening device
can be removed and re-used for repetitive access
bling. Because they cannot be over cinched, they
afe for Cat 5 and fiberoptic cable. Available in a
ety of sizes, grip-ties can be used for most any wire
lling applications.

ICORALLY Rally-Rap®

This spiral-cut wrap applies a strong grip on wire harnesses due to the torsional cut and memory properties of polyethylene plastic. Rally-Rap will retain its strength under repeated flexing over complex, long and continuous wire paths. Ideal for car stereo installations that require break out of multiple leads and resistance to ultraviolet rays. Available in black on a 100' spool.

MCM Part #	Bundle Size	ONLY

Flexible, Semi-Rigid Split Braided Tube

F6's unique split, semi-rigid braided construction makes it the ideal solution for situations where ease of installation is of primary importance. The lateral split allows the tube to open up to accommodate a wide variety of bundling requirements, and the semi-rigid braid configuration simply closes around the entire installation without the need for any additional fasteners (velcro, tape, etc.). **Features:** •Lightweight and flexible •Easy installation •Soft and quiet in high vibration uses •25% edge overlap •Cut and abrasion resistant •Can withstand temperatures of -103°F~257°F •Melting temperature: 446°F
